## SAYS AMERICA IS BOUND BY DEBT TO ACT

President Wilson Declares United  
States Owes it to France to  
Ratify Agreement

PRESENTS DEFENSIVE PACT

Explains France Needs Special  
Temporary Arrangements to  
Anticipate The League

IS NOT TO REMAIN IN FORCE  
Will go Out of Force When the League  
Council Shall Decide it is  
Sufficient Guarantee

(By United Press.)  
Washington, July 29.—America is  
bound by its debt to France to ratify  
the treaty pledging military aid  
to that nation in event of an unprovoked  
attack, President Wilson told the  
senate today in submitting the  
French-American-British defensive  
agreement for ratification.

The president's address was in  
message form. He did not go to the  
capitol. He explained that the situation  
of France seemed to require a  
special temporary pact under  
which the United States and Great  
Britain volunteer to anticipate action  
of the league of nations by going  
immediately to the aid of France  
should Germany strike.

He made it plain that as soon as  
the league council shall decide the  
league itself is sufficient guarantee  
of France's safety, the special  
treaty will no longer remain in  
force.

The president emphasized that  
there is no doubt expressed or implied  
in France's urgent request for  
the special treaty, of the ultimate  
efficiency of the league. But he  
added, "the years immediately  
ahead of us contain many uncalculable  
possibilities." He explained how  
the league is empowered only to  
advise military action by members;  
how that it might involve delay  
which in the case of surprise attack

## AL G. ROBERTSON DIES AT HOME HERE

Expires Monday Night of Anemia  
and Cancer of Liver at the  
Age of 59 Years

FUNERAL TOMORROW AT 2:30

Al G. Robertson, a well known  
resident of this city, died last evening  
about ten o'clock at his home,  
334 East Tenth street, following a  
long illness from anemia and cancer  
of the liver. Mr. Robertson was 59  
years of age last December.

The deceased was born in Shelbyville,  
Indiana, and came here when he  
was 25 years old, having lived here  
since. He was a painter and  
decorator, by trade, and was very  
well known in this city and vicinity.

Six children and a widow survive,  
the children being, Mrs. W. R. Matney  
of Indianapolis, Ralph of Chicago,  
Earl, Lucile, Nina and Lorene of  
this city; two sisters, Mrs. Laura  
Dennison of Hammond and Mrs.  
Margaret Reed of Indianapolis, and  
a brother, William, of Shelbyville.  
He is also survived by two grandchildren.

Burial will be made tomorrow afternoon  
in East Hill cemetery, and  
services will be conducted at his late  
residence at 2:30 o'clock by the  
Rev. L. E. Brown.

## IS KICKED OVER THE HEART

Clem Gardner is—Rendered Unconscious  
by Blow From Horse

Clem Gardner, a farmer living  
southwest of Rushville, was rendered  
unconscious this morning when  
he was kicked by a horse, while at  
work near his place. Gardner was  
at first thought to have been seriously  
injured, as the horse kicked him  
directly above the heart, rendering  
him unconscious, but he was revived  
by a physician, and an examination  
revealed that no bones were broken.  
The accident was very painful and  
it is considered fortunate that Mr.  
Gardner was not more seriously injured.

## NO BIDS TO SUPPLY CURRENT ARE MADE

City Council Will Likely Go Ahead  
With Plans to Build an Addition  
to The Plant

SPECIAL MEETING LAST NIGHT

Councilmen First Try to Buy Current  
to Meet Extra Demands  
Being Made on Local

The city council met last night in  
a special session, and the business  
before them was quickly transacted.  
There were no bids submitted for  
the supplying of the city with  
electric current to relieve the drain  
on the plant during heavy working  
hours, and the idea has been abandoned,  
of having outside current run  
in on the local switch board.

It is probable that at the next  
regular meeting of the council, plans  
will be advanced again for the construction  
of an addition to the plant,  
and extra equipment installed,  
which will take care of the demand  
for electricity. A few weeks  
ago, a committee from the council  
was appointed to investigate the  
need, and to draw up plans for  
the building of an addition, but at  
that time it was deemed better to  
advertise for outside bids.

The other business to come before  
the council was to receive bids for  
a truck, to be used by the city water  
and light plant. Two local men had  
bids in, and a committee from the  
council, consisting of R. F. Sender,  
A. P. Wagoner and Chase Manzy,  
were appointed to investigate the  
trucks and were given power to  
purchase the one which suited them  
best.

Following the short meeting last  
night, the committee went out and  
examined the trucks, but has not  
yet reached an agreement, as to  
which was to be purchased.

All the councilmen were present  
last night, but Mayor Irvin was  
called away shortly before convening,  
and Mr. Wagoner presided over  
the meeting during the session.

## SAYS SON WAS BAYONETTED

Mother Declares His Sergeant Killed  
Him For Refusing to Fight

Paterson, N. J., July 29.—Asserting  
that she had been informed by  
Private Samuel Long, of Company D  
309th infantry, that her son, Frank  
Frye, of the same company, had been  
bayoneted to death in France in  
August, 1918, by an American sergeant  
for refusing on conscientious  
grounds to carry a gun, Mrs. Frye  
has telegraphed to the war department  
demanding an investigation.

The sergeant was court martialed  
but acquitted on the ground that he  
had obeyed orders of his superior  
officer, according to Long's story.  
Mrs. Frye said that she had been notified  
by the department of her son's  
death but had received no details.

## TAXLAW TEST CASE OF INTEREST HERE

Attorneys and Other Local People  
Speculate as to Whether New  
Statute Will Stand

WILL GO TO SUPREME COURT

New Dog Tax Law Also to Meet  
Opposition in Courts—No Effect  
On Enforcement

Considerable interest is manifested  
here in the proposed test cases to  
be filed in Marion county to determine  
the validity of the new tax law.  
Opinion here is divided as to whether  
or not the measure will stand, although  
many believe that some sections will  
be declared void while others will remain  
in force following the decision of the  
supreme court.

One argument advanced here is  
that the old tax law was in force on  
March 1, the date when the appraisalment  
of property throughout Indiana  
was started. The new tax law did not  
become effective until twelve days later,  
and the property that was assessed  
under the former law was reassessed  
under the new law. Some local attorneys  
believe this would invalidate the law  
so far as this year is concerned. On  
the other hand, other attorneys insist  
that the conflict in dates is not material  
so long as all property throughout  
the state was assessed on the same basis,  
which was done.

Indianapolis banks are resisting  
the law on the ground that their  
capital stock has been assessed by  
the state board and their real estate  
by the county assessors. They contend  
that the state board of tax commissioners  
refuse to deduct the appraisalment  
of their real estate which means that  
they are paying double taxes on it.  
Notice is given that the test case  
will be filed and the fight against  
the law will likely be made from several  
different angles.

The new dog tax law which became  
effective with the taxing measure  
is meeting opposition in several  
parts of the state. S. B. Wells, at

## BOTH NEW WELLS ARE NOW SUPPLYING WATER

Are Pumping at Rate of 325 Gallons  
a Minute, Which Gives City  
Ample Supply.

OLD WELLS BEING CLEANED

The reservoir at the water and  
light plant is now being supplied by  
pure water, pumped by electricity  
from two of the finest wells that  
have ever supplied water for this  
city. Last week the new well, located  
on the Stewart farm, southwest of  
the city, was connected and the other  
well recently finished, is also pumping  
water into the reservoir. The two are  
supplying water at the rate of 325  
gallons a minute.

The consumption of water is any  
place from 100 to 700 gallons a  
minute during the day time, and the  
wells are run continuously, which  
keeps the reservoir very well filled.

With the addition of these two  
new wells, Rushville today has a  
better water supply than it ever has  
had before. The new wells are electrically  
pumped, instead of air pumped,  
making three such wells. In all there  
are eleven wells owned by the city  
and the other eight are air pumped.  
At present the nine wells which are  
not used, are being cleaned and put  
into first class shape, so that they can  
be pumped at any time they might be  
needed.

## EXPECT NOTICE ON SHORT TERM NOTES

Local Bankers Hear That Issue of  
Loan Certificates Will be  
Forthcoming August 1

WILL MATURE IN FIVE MONTHS

Will Bear 4 1/2 Percent Interest Same  
as Tax Certificates Which  
Have Been on Market

By Thursday at least, local bankers  
are expecting an announcement from  
Secretary of Treasury Glass concerning  
the new loan certificates of five months  
maturity, bearing 4 1/2 percent interest,  
which will be issued by the treasury  
department semi-monthly, beginning  
August 1, for the remainder of the  
calendar year, for the purpose of financing  
the government's requirements.

Lately the government has been  
depending on tax certificates, which  
are practically the same as the loan  
certificates, to meet its obligations.  
Rushville banks have been buying  
them since July 1, when the first  
issue, maturing December 15, was  
put on the market. Another issue  
came out July 15 and will mature  
March 15, 1920.

In making this announcement in  
a letter to the banking institutions of  
the country Secretary Carter Glass  
said the minimum amount of each  
issue in August and September would  
not exceed \$500,000,000, while subsequent  
issues would be half that amount,  
with the total estimated to be \$35,000,000.

The same period will witness the  
redemption of \$2,997,540,500 in loan  
and tax certificates, leaving a net  
increase of \$502,459,500 to be funded  
by the issue of short term notes,  
when market conditions are favorable  
and the terms advantageous to the  
government.

All national and state banks and  
trust companies will be expected to  
take not less than 1.6 per cent of  
gross resources in each semi-monthly  
issue of loan certificates during  
August and September, with the  
percentage falling to .8 per cent toward  
the end of the year. The pro-

## WOMEN INTERESTED IN EDITORS MEETING

Delegations Going From Many of the  
County Seats in Sixth District  
to Magnesia Springs

20 CARS FROM GREENSBURG

Women are taking more than ordinary  
interest in the mid-summer meeting  
of the Indiana Republican Editorial  
association, which will be held at  
Magnesia Springs Friday. From all  
parts of the sixth congressional district,  
which will be more generally represented  
than any other section of the state, come  
reports of delegations of women who  
are preparing to attend.

Esther Griffin White, a newspaper  
writer of Richmond, who has taken  
an active interest in the suffrage  
movement will lead a large representation  
of women from Richmond. The Wayne  
county seat will also send a band and  
a big delegation to boost the candidacy  
of L. S. Bowman, deputy state auditor,  
who formerly lived at Richmond, for  
the nomination for state auditor.

At least twenty machines, loaded  
to capacity, will represent Greensburg  
at the meeting, and Newcastle also  
has laid plans to send a big motor  
delegation. Many from here are  
going in machines and others expect  
to go to Connersville on the I. & C.  
and take the special train to Brookville  
at 11 o'clock.

## SOUVENIRS OF DISASTER

M. V. Spivey Receives Pieces of  
Dirigible From Frank Rounds

M. V. Spivey has received from  
his brother-in-law, Frank Rounds,  
several souvenirs of the disaster,  
caused in Chicago a few days ago  
when a dirigible fell through a bank  
building, killing and wounding so  
many persons. The souvenirs which  
he received this morning consisted  
of pieces of the big dirigible and  
parts of the ropes which were on it.  
Mr. Rounds was chief of the police  
guards in the bank which was totally  
destroyed by the explosion, and he  
escaped injury by having left the  
bank only a few minutes before the  
disaster.

## MEETINGS FOR EGG CULLING ARRANGED

Will be Held at Several Points in the  
County Morning and Afternoon  
of Aug. 12 and 13.

LEROY JONES WILL BE HERE.

Purdue Men Making Tour of Every  
County in State in Interest of Egg  
Production.

Plans have been about completed  
for the two day meeting here of  
poultry men and the representative  
of Purdue extension department on  
August 12 and 13, when an egg  
culling contest will be held. LeRoy  
Jones of Purdue will be here and  
meet with the farmers who are interested  
in egg culling.

Meetings have been arranged for  
different places in the county, and  
at 9:30, August 12 a meeting will be  
held either at John Zeigler's or on  
Mrs. Blackledge's place. At two o'clock  
of the same day a meeting will be  
held at Jack Hall's, one mile north  
of Raleigh.

The meetings for the next day  
will be at Clifford King's in the  
morning at 9:30 and at two in the  
afternoon at Frank Offutt's, in  
Arlington. A similar meeting will  
also be held before noon at Ed Austin's  
in New Salem.

Much interest has been shown in  
counties around here with their egg  
culling contests, and every farmer  
in the county can profit by attending  
these meetings, it is declared. Purdue  
extension department is making a  
tour of every county in the state  
during the months of July and  
August in the interest of egg production.  
Mr. Jones was here two weeks  
ago and met with the egg record  
keepers for this county, and plans  
were then made for the demonstration  
which will be held in this county  
on the two days, August 12 and 13.

## MARINE STRIKE SETTLED

Engineers Agree to Terms and Ships  
Are Moving Again

New York, July 29.—The strike  
which for about three weeks has  
tied up shipping along the Atlantic  
and gulf seaboard, was finally settled  
last night when an agreement on  
wages was reached with the marine  
engineers. William S. Brown, national  
president of the engineers union,  
immediately sent out orders to  
move ships without delay.

Under the agreement, chief engineers  
win their demand for wage increases  
ranging from \$92.50 to \$100 a month,  
according to the class of ships, which  
gives them not less than \$25 a month  
less than masters. Assistant engineers  
gain from \$35 a month for first assistant  
engineers to \$10 for junior engineers,  
and masters are granted, without any  
demand on their part, an increase  
of 10 per cent.

## CHICAGO RACE RIOT CLAIMS LIVES OF 21

Injured Number Over 110 in Stabbed,  
Shot and Beaten, Both Blacks and  
Whites Being Victims.

MILITIAMEN HELD IN RESERVE

Gov. Lowden, Who is in Chicago,  
Orders Troops Sent Whenever the  
Police Call for Help.

RUMORS ADD TO DIFFICULTY

Rioting, Suppressed in Black Belt,  
Flares up Elsewhere in City  
During The Day

(By United Press.)  
Chicago, July 29.—The list of  
known dead in Chicago's race riot  
was increased to 21 today, when a  
white youth was shot and killed by  
a negro woman just outside the city  
business district. The woman was  
arrested.

Two negroes were killed in the  
loop today. Police and other observers  
said the dead would exceed that  
number.

The injured number over 110 in  
stabbed, shot and beaten. White  
and blacks were about evenly divided  
among the injured.

Police stations in the negro district  
were well filled with injured and  
frightened residents of the black belt,  
seeking protection.

State militiamen were held fully  
equipped with rioting ammunition,  
in their armories.

Governor Lowden, here to confer  
with city officials over the riot and  
street car strike, instructed the  
adjutant general to rush troops to  
the rioting districts whenever police  
called for help.

City officials said the situation  
was under control and troops probably  
will not be needed.

All available police reserves were  
posted in the black belt.

The disorders spread today to the  
north side of the city, where a number  
of negroes were pursued and threatened.

The riot suppression reached in  
the black belt, flared up in other  
sections of the city throughout the  
morning. There was shooting and  
stabbing, mostly by small gangs,  
when they were out from the dis-

## CHICAGO SURPRISED BY A STRIKE TODAY

Traction Company Employees House  
Cars at 4 A. M.; Rejecting 20  
Cents an Hour Increase.

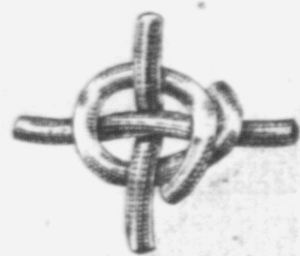

RADICALS CONTROL MEETING

(By United Press.)  
Chicago, July 29.—Chicago was  
caught today by a surprise strike  
of traction company employees who  
housed their cars at four a. m. Both  
elevated and surface line employees  
rejected a compromise in their  
wage controversy.

Fifteen thousand men refused an  
offer of 20 cents an hour increase.  
The strike decision came late last  
night when street car men in a riotous  
meeting were carried along by  
radicals to demand 77 percent raise.  
"Strike, strike, strike" was reiterated  
from the time the meeting began.

Department stores, factories and  
other big business houses, began  
early sending delivery trucks, motorcycles  
and motor cars for their employees.

## If You Have Money

We want you farmers to consider these facts before spending it:

Fence is one of the few articles that has decreased materially in price in the last two years.

You can get from our unusual assortment any kind of fence you want and at the right price.

Fall is an excellent time to build fence. Why not spend your time and money advantageously this fall by repairing and building your fences?

## How Acme Worm Bouncer Expels Worms

When the hogs and pigs eat anything the Free Intestinal worms do not like, they lay dormant. The hog which is fed **Acme Worm Bouncer** in the SELF FEEDER eats a little—several times a day. The WORM BOUNCER goes into the stomach and intestines—STRAIGHT. The time comes when the worm must eat, and when he does, the **Acme Worm Bouncer** PARALYZES the worm—he then must let go—and in that manner the **Acme Worm Bouncer** expels the worms and EXPELS THEM ALIVE from 5 to 7 days after you commence to feed **Acme Worm Bouncer**.

**Acme Worm Bouncer** is fed with perfect safety to all pregnant animals, whereas any remedy that kills the worm in the INTES-TINES AND STOMACH is very injurious to the animal and very dangerous to use.

## BANK PRESIDENT ON TRIAL TODAY

Demas Deming, Aged 78, Faces a Charge of Bootlegging After a on His Home.

WAS STOLEN LAST MONDAY.

Two Men Entered Basement, Took Wine and Were Caught, But Told Where They Got it.

Terre Haute, Ind., July 29.—Demas Deming, 78, wealthy president of the First National Bank and other financial institutions here, was to be tried today on a charge of violating the state prohibition law.

The cellar of the Demas mansion was raided recently and the millionaire was arrested when two men found with a quantity of liquor said they had taken it from the cellar. The raid did not reveal any whiskey.

A. X. Thomas, city court prosecutor, prepared to meet what he considers the two main points of the defense: First, that the police found no whiskey or wines in the big wine cellars under the Deming mansion; mansion; and second, that if Deming and second, that if Deming did have whiskey there, it was for his use and not for sale.

Thomas pointed out that the city court has repeatedly held in similar cases, where the defendant as a poor man, that a quantity of liquor over a gallon was prima facie evidence that it was for sale.

The state relies on the sworn statements of William C. Mitchell, a painter, of this city, and Walter Followell, 39, Indianapolis, that they entered the wine cellar at the Deming home early last Monday and stole twenty-two quarts of whiskey and a quart of gin.

The two alleged burglars were caught by the police with the whiskey in a gunny sack in an alley a short distance from the banker's home about 3 a. m. Monday. A taxi cab driver, who told the police he was hired by the two painters to meet them in an alley, took the police to the meeting place.

Both men signed purported confessions and repeated on the witness stand that they stole the whiskey from the Deming wine cellar.

Mitchell, who had been employed at the Deming home, said the wine cellar contained at least a hundred quarts of "hooch" while Followell contended that there was at least six hundred quarts.

Oscar Bonham, one of the officers who searched the house, stated there was evidence that bottles had been hurriedly removed from the wine racks as well as from boxes in the wine cellar. He also reported that one of the big touring cars at the Deming home was not in the garage at the time of the search.

Bonham also reported that a cork of a whisky bottle was found in a large basket in the cellar. Deming denied possession of the whisky.

## TO FORECLOSE LIEN ON 12-CYLINDER CAR

Continental Finance and Securities Co. Also Seeks to Replevin W. E. Cook's Auto

The Continental Finance and Securities Company of Indianapolis has filed a suit against Wilbur E. Cook of Manilla on a replevin complaint and to foreclose a lien, asking judgment in the sum of \$900.

Cook borrowed the sum of \$602 from the Indianapolis concern, according to the complaint, and gave his twelve-cylinder automobile as security. Payments on the amount were to have been made in twelve monthly installments, with interest and attorney fees, but it is stated that after the second payment, the company was unable to collect anything further.

The Indianapolis company is asking judgment against Cook for a twelve-cylinder car in the sum of \$700 and put into first class \$700 and judgment for the \$200 damages, and asks that the car be sold to pay for the above amounts.

Three Prisoners at Fort Jay Testify at Investigation of Prison Conditions of A. E. F.

### COMMITTEE TO GO TO FRANCE

New York, July 29.—Former Lieutenant F. H. Smith, also known as "Hardboiled" Smith, and former Sergeant Clarence Ball and a third prisoner, at Ft. Jay, Governor's Island, were the first witnesses to be called before the house sub-committee headed by the Congressman Royall C. Johnson, of South Dakota, investigating prison conditions in the American expeditionary forces, at its hearings begun here today. The committee is to sail for France August 7, to continue its inquiry into prison conditions there. While these three prisoners were the only witnesses called in advance it is expected that the hearing will develop disclosures that will bring other inmates of "the castle" to the stand. It is said that there are a number there who were in the prison commanded by Smith and Ball.

## Dowagiac Steerable One-Horse Disc

The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy.

The feeds are chain-driven from the axle of the two rear wheels which have ratchet hubs making both wheels drivers.

The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn. Each disc has independent up and down motion with spring pressure—the only way for uniform depth on uneven ground. With the convenient lever all discs are lifted when turning or transporting the drill to and from the field.

### STATIONED AT CHAUMONT

Everett McHenry, Who Was at A. E. F. Headquarters, Has Returned

Everett McHenry, son of Mr. and Mrs. Jess McHenry of Richland township, who was stationed at American headquarters at Chaumont, France, during the war, has returned to his home, having been discharged in an eastern camp. Private McHenry was overseas for seventeen months and sailed from Brest July 13, landing six days later. He was attached to general headquarters, where General Pershing was located after America began to take an active part in the war, and was employed driving motor cars for officers.

### LEWISVILLE DEFEATS CONNERSVILLE TEAM

Reserves Fall Before Onslaughts of Razz Jazz Babies by Score of Two to One

### CENTERVILLE NEXT VICTIM

Lewisville, Ind., July 29.—The Razz Jazz Babies, Lewisville's popular ball team, Sunday defeated the Connersville Reserves, fast semi-pros, by the score of 2 and 1, in an errorless game. Hickman and Battison pitched for the locals. The Connersville team had the preceding Sunday defeated the Arlington nine by the score 15 and 2, and are listed among the fastest clubs in eastern Indiana.

The Babies have a record almost unequalled. They have defeated every team they have played this season with one exception, Newcastle, and will have a return game with this club August 10, when they expect to perfect their score. Centerville plays at Lewisville Sunday.

A few dates are open with the Lewisville club. Address Omer S. Poelle.

### 'LOST MAN' FOUND ON FARM NEAR CARTHAGE

William Huffman, Who Has Been Missing Since July 16, Was Hiding in a Thicket

### POSSE AFTER A DESPERADO

While in search of George Anderson, negro desperado who escaped from the Muncie jail last week, officers found William Huffman, colored, of Canton, Ohio, in a thicket on the William Fentress farm north of Carthage, Sunday night.

Huffman disappeared from Carthage on Wednesday, July 16, and all efforts to locate him had failed. His friends made inquiries at Rushville, Connersville and other nearby cities without avail. He suffered from an attack of influenza several months ago and came to Carthage to spend the summer. His illness is believed to have caused him to become temporarily insane. He was surrounded by the officers and taken to Knightstown where he was later identified by a friend. He had had nothing to eat but blackberries since wandering into the country.

Anderson, who broke jail at Muncie July 23, was captured last night in a thicket in the northern part of Henry county and returned to Muncie.

### Amusements

#### Serial to Begin at Mystic

The first episode of a serial "Elmo The Mighty," in which Elmo Lincoln hero of "Tarzan," is cast in the leading role, will be shown at the Mystic theater Thursday. Lincoln as Capt. Robert Armstrong, who has returned from service overseas to become a forest ranger, renews an acquaintance with Lucille Gray, whom he met when she was in the Red Cross service in France, and who has returned to her father's home in the West.

Gray is the Western manager of a great timber syndicate. He has been away, and returns at the same time that Lucille does. In his absence, scoundrels in the company have defrauded the government of half a million dollars on a tie contract. To save themselves they implicate Gray.

Gray attempts to get proof of his innocence from Strang, manager of the company's bank. They quarrel and Strang is killed by a mysterious shot. Gray thinks he has killed him and flees to the Mad Mountains—so called by the Indians, who believe them to be haunted by spirits of the departed, and particularly by the Phantom Menace, a cloaked figure appearing mysteriously on a motorcycle and hiding no man knows where.

The scoundrels of the company seek to get possession of the suitcase full of documents and money which Gray took with him. Gray seeks to retain it. Lucille, aided by Armstrong, seek to find Gray, and so bring themselves under the wrath

of the swindling crew, who are aided by a mountain cutthroat, Rawden.

The action wages furiously. Peril after peril is encountered by the heroic Armstrong and his plucky sweetheart.

#### Ethel Clayton at Princess

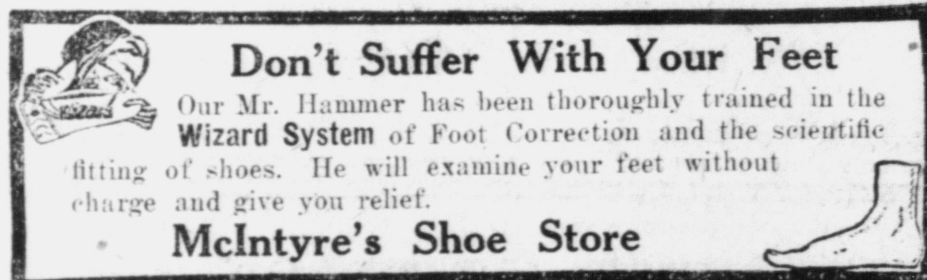

In her new picture "Men, Women and Money," which will be presented at the Princess tonight, beautiful Ethel Clayton plays a captivating role, that of Marcel Middleton, a society girl.

Marcel's parents have sent her to an exclusive girls' finishing school in the East and she becomes enamored of society's ways, as one of her chums is a member of the smart set. Therefore, when the chum invites her to spend the summer vacation with her at her eastern home, Marcel's parents mortgage their little home that she may accept the invitation.

Marcel makes an impression among the society idlers, even incurring the hatred of her hostess, who jealously loves one of Marcel's new admirers. Marcel's parents are killed in an automobile accident and after settling up the estate, she returns to the East and rents an expensive apartment. When her money runs out, her friends desert and insult her.

This is her awakening and she starts to work to pay off her debts, thereby winning the respect and love of the man who had insulted her. He now changes his way of living also and sets out to win the girl whom he now loves.

How he succeeds forms one of the most pleasing romances of the day.

### The Gathering Cloud

At the beginning of 1915 a long series of demands was made on China by the Japanese. Among them were extensions of the lease on Port Arthur and on Dairen for a century.

The effect of these leases were to transfer to Japan the control of all of the mines in south Manchuria and eastern inner Mongolia, including some of the richest mines in the world. Usually a supreme stroke in the direction of territorial aggrandizement by one power results in interference by all other powers directly or remote interested. In this case the powers most directly interested—next to China—were Germany and Russia, and at the beginning of 1915 (when this happened) they were still more interested in something else. They had been fighting each other for four months.

So the Japanese took hold. But all that they acquired then is insignificant compared with their present demands. The effect of them forces China to employ Japanese advisers in political, financial and military affairs; to establish police departments in important places in China, to be jointly administered by the Chinese and Japanese governments; to purchase from Japan a fixed amount of munitions of war, and to give Japan the right of constructing railways connecting the cities of Wuchang, Kiukiang, Nanchang, Hangchow and Chao-chow.

We may say that it amounts to a protectorate over all China. And it only falls short of annexation be-

People with the finest homes do the most gadding.

About the only diet that gives good results is a little plain food and a lot of chewing.

Hez Heck says: "Chiggers, poison ivy and the high cost of living sure do keep a fellow scratching."

One of the happiest moments in a woman's life is when she tells her doctor all about her physical troubles.

Society is having a hard time finding something new to shock us, having already done everything but pose publicly in the "altogether."

Before marriage a girl brags to her beau what a good cook she is, and after marriage her highest ambition is to shift the cooking to a hired girl.

When you get along in years and see how some of your old sweethearts have turned out, you lift up a prayer of gratitude that somebody else got 'em.

cause annexation must of necessity be gradual. A country with 400,000,000 inhabitants is too vast to be annexed all at once. But that the process of annexation is well under way no one can doubt.

Well, what is this to us, you ask? It is simply this. The whole of eastern Asia is, in fact or in prospect, Japanese. Facing our Pacific coast is the Asiatic coast—administered by a power that controls resources as rich as our own, and which is united in one national purpose, instead of being divided into a number of political parties with contrary aims.

And to the Japanese we deny citizenship, although we grant it to Mexicans, Turks, Syrians and negroes. Here is cause for international friction, if there were no other cause—friction with a determined antagonist whose resources are boundless, and who is just waiting for the psychological moment to hurl his armies against us.

We can face the fact with calmness, if we are prepared. But are we prepared?

And now, Mr. President, we suggest a league of industry that will prevent these eternal scraps between capital and labor and restore something like public confidence in our commercial system. Let's clean our own house while we are about it.

Don't spend all of your time swatting the fly. Hand the Bolshevik a few while you are about it—for the good of your country.

## RADICALS ARE QUIETING DOWN

Opinion is That Any Danger of an Overthrow of Government in Britain is Unlikely

WORKER STILL TO DEAL WITH

Only Out-and-Out Announced Bolshevik Leader Has Been Quiet For Several Months

(By United Press.)  
London, (By Mail).—Radical fanaticism, or what is better known as Bolshevism, is quieting down in Britain. Here and there outbursts continue, but they are only spasmodic, and the general opinion is that any danger of an overthrow of the government except by constitutional means is unlikely.

Britain's success in combatting the radicals, is credited here to the moderate manner with which the radicals were dealt with. Only once or twice was it necessary to threaten armed force and this threat did not materialize.

"Give them plenty of rope and they will hang themselves," was the attitude taken towards the extremists, with the result that the plain citizen of Britain today exhibits little sympathy with radicalism.

Though meetings were held at which extremists of the most radical type made fervent speeches to huge audiences, they failed to spur the liberal element to violence. They did help to speed labor to an awakening of its power with the result that all over the United Kingdom men and women today are earning higher wages and working shorter hours.

Though radicalism, as represented in an effort to foster a revolution, has quieted, the government still has to deal with the worker. His vast power was shown to him when the government practically surrendered to the British miners in face of a strike of the miners, railwaymen and transport workers.

Such extremists as Ramsay MacDonald and Mrs. Phillip Snowden are still active. George Bernard Shaw, the famous novelist, continues contributing his support by his ever-humorous quips and semi-serious remarks. George Lansbury is editing the London Daily Herald, Britain's labor organ, and Arthur Henderson, secretary of the Labor

Party, is helping Lloyd George on the labor problem at the peace conference. All these, however, are constitutional radicals.

The only out-and-out announced Bolshevik leader, Billy Watson, has been quiet for several months. The last time he was in the public spotlight was when the police arrested him for speaking. Several others of his supporters were rounded up and either deported or locked up.

Tarfalgar Square, the great mecca soap-box orators, still "carries on," but a "Bobby" (London policeman) stands by to see that there is no disorder.

Efforts to unionize the police have relaxed temporarily. This was due to the government's offer to increase pay, a semi-recognition of the men's right to present their side of a grievance, and the unshaking determination of the government to utilize several thousand willing discharged soldiers and sailors as strike-breakers.

## BOOST SALES WITH PERSONAL LETTERS

County Chairman in the W. S. S. Movement Adopt Plan For the New Savings Certificates

IS SUGGESTED BY L. C. MANN

Indianapolis, Ind., July 29.—County Chairman in the W. S. S. movement, together with postmasters of Indiana, are adopting a personal letter as the means of boosting sales of the new \$100 and \$1,000 Treasury Savings Certificates. L. C. Mann, of Warsaw, postmaster and county chairman, suggested the idea, having tried it and found that Kosciusko county people listened readily to his arguments. Among others trying it out are Curtis S. Miller, chairman of Huntington, Arthur P. Bouras, chairman of Auburn, Bert E. Kimmell, postmaster of Howe, Henry Schaal, postmaster of Michigan City, and W. S. Ellis, chairman, and L. E. Reeves, vice-chairman, of Anderson.

The \$100 Certificates will sell for \$83.60 in July, and \$83.80 in August, at postoffices. Banks and trust companies will handle the \$1,000 Certificates, which sell for \$836.00 in July, \$838.00 in August, and \$2.00 more each succeeding month until December 31, 1919. Early indications are that these new securities will be decidedly popular throughout the state.

### Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

One of the wiftest sayings of the late Thomas Brackett Reed was incited by the rather sombre dinners staged by Benjamin Harrison as the Nation's chief executive. President Harrison was not exactly a mixer. It is of record that wild cheers for him were tributes to his deceased ancestor of Tippecanoe fame. When Reed was asked if he would attend a certain Friday evening dinner at the White House he said: "No! And I can't say that I enjoy those dinners. They are so apt to open the oysters with prayers."

### HOUSE REPEALS SODA TAX

Removal Entirely is in Prospect Following Vote Monday.

Repeal of the ten per cent war tax of soda water, ice cream and other drinks sold at soda fountains, was in prospect today following the passage by the national house of representatives, late yesterday, of a bill to take the tax off.

This is one war tax that has come in for considerable criticism. It was passed in the guise of a luxury tax, but patrons of the soda fountains refuse to be convinced that refreshing drinks in the summer time are a luxury.

## ONE PRISONER TAKEN IN FIRST S.A. ATTACK

Revival Begins at Church With Evangelist Joe Wainscott of Shelbyville in Charge

ADVANCE ON SIN STARTS

A large crowd gathered at the Salvation Army church Sunday night and witnessed the advance movement against sin, says an announcement about the beginning of the revival.

Sharp at the time announced the forward signal was given and the singing of "The Fight is On" set every one on edge for the over the top movement for Jesus.

The commander of the Shelbyville heavy artillery, Evangelist Joe Wainscott brought the message of the evening, using for his text: "Sanctify Thyself for God is prepared to do Wonders Among You Tomorrow." This text formed the basis of a very powerful appeal for each Christian to be at their best, that souls might be won for Christ.

One prisoner was taken from the enemy's trench.

Next meeting will be Tuesday evening at 8 p. m. At 7:45 prayer meeting will be held in the Glory Room.

## BEARDSLEY WINS FRENCH WAR CROSS

"Average New Yorker" Has Been Recognized by the French Army in Awarding Croix De Guerre

COMMISSION WITH RED CROSS.

He Was a Broker Over 42, Had Been Twice Refused by Army and Had Wife and Two Children.

(By United Press.)

Paris, (By Mail.)—The services that the "Average New Yorker", over the military age, rendered at the front in France, have been recognized by the French Army in the award, announced today, of the Croix de Guerre to Sterling S. Beardsley, a New York cotton broker. Beardsley served for nine months with the American Red Cross as a canteen worker in the fighting zone. Marshal Petain was the signer of his citation.

Captain Beardsley gained the

nickname of "The Average New Yorker" in the press dispatches. The idea conveyed was that Beardsley's situation in life at the time America entered the war was about the average of thousands of New York business men. He was a broker, over 42, had been twice refused by the Army, had a wife and two children. He bought Liberty Bonds, contributed to the welfare organizations and joined in various "win the war" activities.

But somehow this work did not suffice him and so he obtained a commission with the Red Cross. He sailed for France in January, 1918. Two months later he was in the midst of the biggest offensive the German armies had ever attempted—the Somme drive of March, 1918.

Beardsley had never made a cup of chocolate or performed any kitchen labor in his life. But the night he reached the front on top of a rolling soup kitchen he started to scour pots and pans. He explained that he "just figured out" that they ought to be clean.

That night the enemy airmen came over where his soup kitchen was set up and he had to sleep in a damp, rat-infested wine cellar. Next day he set to work to make coffee, cocoa and soup by the gallon. Two weeks later when he took his clothes off for the first time since his arrival, he realized that he had become a first-class soup chef.

He stayed at his soup kitchen in Compiègne for two months. Then he had orders to move to the Marne. He set up his kitchen in Chateau-Thierry. Forced out of there, he went on to another town where he found a hospital full of wounded with insufficient medical staff. He scrubbed floors and aided the doctors at operations and served soup and coffee from his canteen "on the side".

## AIRPLANE MOTORS DISTURBING SLEEP

With Fact Apparent That Airplane Industry Will be Prominent Paris Wants New Laws.

MIGHT NEED THEM HERE

Each Motor Must be Tested Out Before Placed in Machine, and Slumbers Would be Disturbed

(U. P. Staff Correspondent.)

Paris, (By Mail.)—With the certainty that aviation is quickly to become one of the big industries throughout the entire world, Paris has a little warning for all of her sister cities of America and every other country.

The warning is this. Enact immediately, either state, municipal, or national legislation, prohibiting the erection of airplane factories anywhere within hearing distance of where human beings have to live and sleep.

Otherwise, said human beings won't be able to sleep and will be driven in no time at all either into their graves or some faraway sanitarium.

Everyone knows how much rum-pus an airplane makes when it is flying thousands of feet overhead. Well, every airplane motor before it is mounted has to be tested and to be tested it is attached to a huge bench or platform and ran continuously at top speed, with hundreds of horse power back of it, for at least 24 hours and sometimes 48.

During that period of time nobody living within hearable distance can possibly sleep.

At Suresnes, where motors are tested for 48 hours, it has been necessary to close an adjacent school.

At Puteaux, the inhabitants declare they have not slept for months.

At Courbevoi the city council has resigned as a means of protest.

At Clichy, the city had bought a large tract of land for the erection of a municipal hospital. Airplane factories during the war installed themselves in the vicinity and the medical authorities now refuse to let the city build its hospitals in such a death-insuring locality.

The Department of the Seine has been forced in the interest of public health to take measures to stop the airplane factories and get them moved into more isolated localities.

SKULL IS FAVORITE THEME

Much Emphasis is Laid on an Exposition of the Results of Bolshevism

By CARL D. GROAT

(U. P. Staff Correspondent.)

Berlin, (By Mail.)—Bolshevism, or as it is called in German, "der Bolshewismus", is being fought with a famous German weapon—propaganda.

Lurid posters decorate Berlin; just as lurid pamphlets and handbills are being sent broadcast by the propagandists who seek to steer Germany clear of the system of the next door neighbor, Russia. Some of the anti-bolshevik posters have a tendency to keep one awake nights; they could easily be used to scare recalcitrant children.

The favorite theme in the propagandist poster is an admixture of skulls, clenching skeleton hands, fire, and ogres. One potter is of an ugly skeleton, bearing in its mouth a bloody dagger, while in the background is a scaffold. Its sole message to the public reads, "The Danger of Bolshevism". Another calls bolshevism a "sea of blood and an army of graves", while it portrays a crying woman before an expanse of graves, each marked with a humble wooden cross.

Much emphasis is laid on an exposition of the results of bolshevism—"war, unemployment, and hunger", and the handbook gives a series of figures to show what bolsheviks in Russia do and do not eat, what sufferings they endure, and so on, ad infinitum. Special appeals are made to protect the "fatherland, the home and the loved ones from bolshevism, which is the death of freedom, order and happiness.

The propagandist does not overlook the oft repeated story that, in various sections of bolshevized Russia, women are nationalized.

The anti-bolshevik fight is being conducted by an organization styling itself, The Union for Fighting Bolshevism. It now has a considerable membership which is understood to include a number of prominent and wealthy Germans.

That there is some fertile soil for bolshevism in Germany is certain; but, the German people do not want so radical an experiment in government or economics, and would be quite content with almost any regime which afforded them an opportunity to get away from unemployment, disorder and discontent. The German is too disciplined by long years in the Kaiser school to swing entirely to extremes, especially if he gets more freedom and a chance to live without such an experiment.

**PEPSINCO**

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pains; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications of indigestion which PEP-SINCO immediately relieves. Keep PEP-SINCO handy and take it the next time.

The beautiful country home of Allen S. Barnes, two miles east of New Salem, was the scene of a pleasant informal affair, Sunday, in honor of Mrs. Barnes' sister, Mrs. George Fulton of Texas, and her brother, A. C. Winchel, of Dayton, Ohio, who are spending a few weeks with relatives and friends in this county.

After the beautiful pitch-in dinner the guests were grouped together on the beautiful lawn and a photograph

taken of the following members present: Mr. and Mrs. Allen Barnes, Mr. and Mrs. George Fulton of Texas, Mr. and Mrs. Rame Fulton, and two sons, also of Texas, Mr. and Mrs. Enos McKibben and son Morris, Mr. and Mrs. John Murphy, Miss Mary Colvin, Mr. and Mrs. Owen Gwinnaup, Mr. and Mrs. Luther Gwinnaup and daughter Alene, Mr. and Mrs. John Fulton of Glenwood, Mr. and Mrs. Charley Fulton and Mrs. Julia Noah of Glenwood, Mr. and Mrs. Ross Stevens and son Lorraine, Mr. and Mrs. Bennie Stevens, Mrs. Elizabeth Linville, Ross Winchell and Mrs. Ella Smith of Anderson, Mr. and Mrs. Robert Porter of Connersville, Mr. and Mrs. Sylvester McKibben son and daughter, and Mr. and Mrs. Willie Linville. After a pleasant social evening all joined in singing the hymn, "God Be With You 'Till We Meet Again," after which they all departed for their respective homes.

Mr. and Mrs. J. M. Maple of near Glenwood entertained with a basket dinner Sunday in honor of Mrs. John Cramer and daughter Thelma of Charles City, Iowa, and Miss Blanche Petty of Wabash. The following guests were present: Mr. and Mrs. Ernest Maple of Norristown, Mr. and Mrs. Walter Maple and

family of Fairview, Mr. and Mrs. Fred Maple and family of Rushville, Mr. and Mrs. Walter Maple and family of New Salem, Mrs. Ethel Croddy and children of Rushville, Mrs. Zada Clark and children of Glenwood, Rosecoe Wagner and Omer Coon.

Miss Edna Bever entertained with a prettily appointed dinner party at her home Sunday evening. A bouquet of summer flowers formed the centerpiece for the table and covers were laid for Miss Louise Sipe, Garrett Ricketts and Stanley Stewart.

Mr. and Mrs. Raymond Sharp and family, Mr. and Mrs. D. D. Sampson and son Doris and Oakley Sampson motored to Flatrock cave Sunday and enjoyed a picnic.

The War Mothers club will meet tomorrow afternoon in the G. A. R. room in the court house. All members are requested to be present.

Mrs. J. C. Sexton was hostess for the Five Hundred club yesterday afternoon at her home in North Main street. The guests enjoyed the hours playing Five Hundred over the card tables. At the close of the playing a dainty luncheon was enjoyed.

The members of the Monday Evening Bridge Club was entertained at the home of Mrs. Fred Caldwell, in North Morgan street, last evening. After several games of Bridge the hostess served light refreshments.

Mr. and Mrs. Walla Weakley and daughters Margaret and Joan and son Roy, and Miss Magdeline Arbuckle, of this city, were among the guests at a dinner party given by Mr. and Mrs. George Diekmann, of Newcastle Sunday.

Miss Fern Jones and Herman Sampson of this city and Miss Ezzetta Replogle of Muncie, were the week-end guests of Miss Mary Oldham of Newcastle.

The Pythian Sisters will have a call meeting tomorrow night for practice work. Every officer and every member of the degree staff are urged to be present.

The regular meeting of the Tri Kappa sorority was held at the home of Miss Jessie Anderson, south of the city, last night and arrangements were made for a pitch-in supper to be held at the home of Mrs. Will Norris, south of Carthage, next Monday evening, in honor of Miss Jessie Kitchen, who will move to Columbus this fall, and the Misses Bertha and Jessie Monjar, who will go to Los Angeles, California, in September for permanent residence.

Curtis Gahimer, son of Mr. and Mrs. Henry Gahimer of Arlington, but formerly of Blue Ridge, and Miss Mina McKinney, of Greenfield, were married Saturday at the home of the bride in Greenfield. Mr. Gahimer saw service overseas for some time. The young couple will reside on a farm near Arlington.

Mr. and Mrs. Rieger Williams and sons Charles and Don, of Peru, Ind., motored to this city and were the week-end guests of Mr. and

### CHICAGO RACE RIOT CLAIMS LIVES OF 21

strict so heavily patrolled by officials.

Troubles of the police were increased on rumors that a mob was forming to march on the city jail to demand the release of Thomas Fitzgerald, charged with the murder of six-year-old Janet Wilkinson. Details were drawn from the reserve in response to that rumor.

The riot is termed here the most serious ever occurring in a northern city.

Governor Lowden appealed to the business men, negro leaders and city officials to get together and settle the difficulty.

Chicago's serious difficulties because of the street car strike were side-tracked, to assure action in quelling the rioters.

Four thousand troops were already today for duty. They have not been called for by city officials who believe that they have checked the rioting.

Police have been ordered to break up all gangs. Colored soldiers and police together keep pedestrians moving. Whites entering the district where rioting occurs are made to explain their business. Sale of firearms and munitions was prohibited.

Governor Lowden and Mayor Thompson, after receiving reports from police and officials, felt much encouraged over the situation this afternoon.

Mayor Thompson said the police have matters in their hands and possibly it will not be necessary to call out the militia.

Joseph Powers, white, a street car conductor was shot and killed soon after daylight in the stock yards district. William Henderson, a negro, was arrested on suspicion in connection with the killing.

An additional menace was seen today in the street car strike, with its disorganization of the city traffic system.

Scenes such as Chicago has not witnessed in years, if ever before, have been seen since Sunday. A 100,000 negroes and equal number of whites have either fought in the streets and alleys or cowered in their homes, while shots were fired, mounted policemen have galloped along the boulevards, patrol wagons have dashed through the streets with prisoners and wounded, women and children have screamed as men have fought with cudgels, knives and fists.

When the rioting, which started Sunday night with the stoning and drowning of a negro who had drifted on a raft into the water of a beach used by whites, broke out afresh last night, Mayor Thompson asked Governor Lowden for troops. The Governor, who was on his way to Lincoln, Neb., turned back at Burlington, Ia. In the meantime, Acting Governor Oglesby gave Adjutant-General Dickson orders to mobilize necessary soldiers. By

## HEADACHE

Caused by

## Acid-Stomach

Yes, indeed, more often than you think. Because ACID-STOMACH, starting with indigestion, heartburn, belching, food-repeating, bloating and gas, if not checked, will eventually affect every vital organ of the body. Severe, blinding, splitting headaches are, therefore, of frequent occurrence as a result of this up set condition.

Take EATONIC. It quickly banishes acid-stomach with its sour bloating, pain and gas.

It aids digestion—helps the stomach get full strength from every mouthful of food you eat. Millions of people are miserable, weak, sick and ailing because of ACID-STOMACH. Poisons, created by partly digested food charged with acid, are absorbed into the blood and distributed throughout the entire system. This often causes rheumatism, biliousness, cirrhosis of the liver, heart trouble, ulcers and even cancer of the stomach. It robs its victims of their health, undermines the strength of the most vigorous.

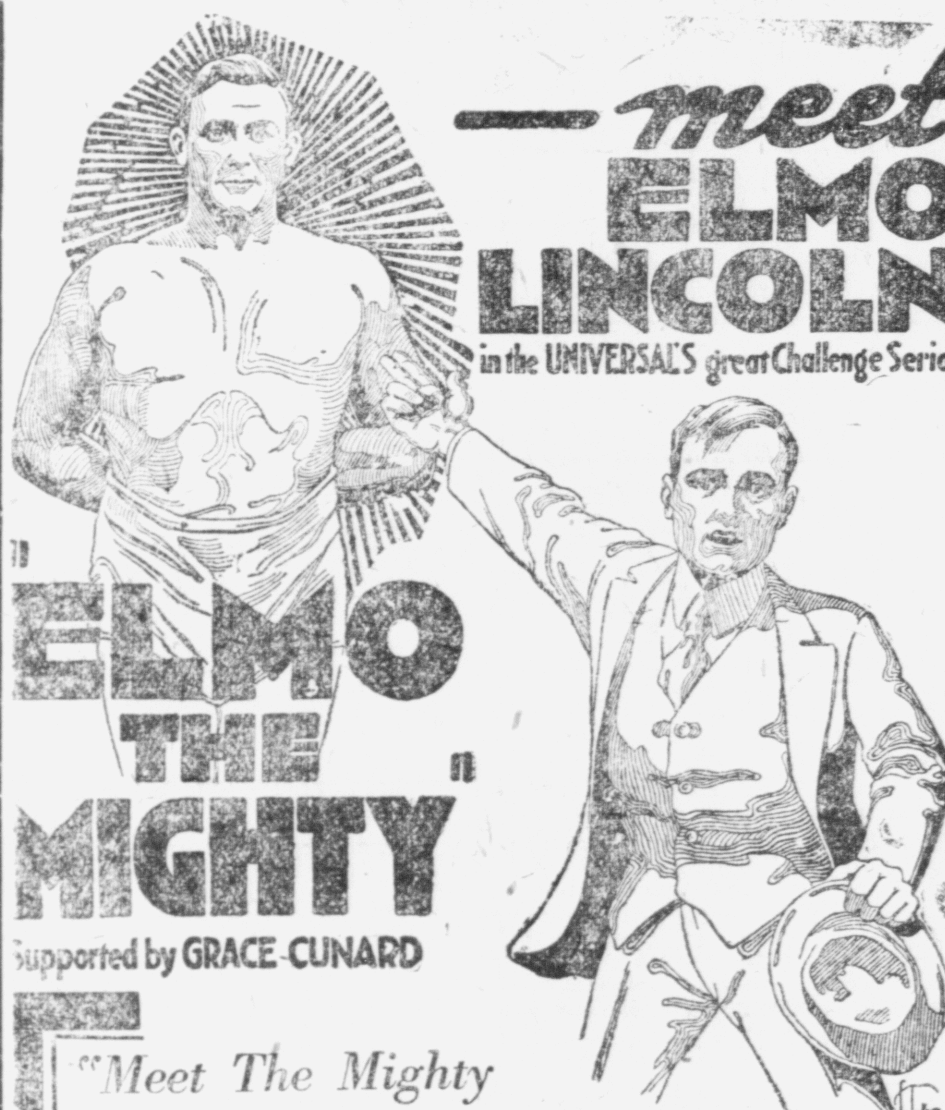

If you want to get back your physical and mental strength—be full of vim and vigor—enjoy life and be happy, you must get rid of your acid-stomach.

In EATONIC you will find the very help you need and it's guaranteed. So get a big 50c box from your druggist today. If it fails to please you, return it and he will refund your money.

They Canned Last Year Now You Can This Year

U S DEPARTMENT OF AGRICULTURE

Women in Cippewa County, Wisconsin, made some remarkable records last summer in canning fruits and vegetables. They put up 704,365 quarts of fruits and vegetables, with a total valuation of \$211,309.50. Not only the variety which the canner fruit and vegetables add to meals, but also the amount of money saved is appreciated by those who have learned from Uncle Sam how to can. This is one woman's appreciation:

"Last summer I learned to can by the method in which the product is cooked in the can, and tried it with fruit, vegetables, and meat. Whenever my husband goes to the store he asks what groceries are needed. This winter we have so many things in the cellar which I had canned that many time we do not need anything from the store. My husband says that we have never lived so well and so cheaply as we have since I learned this way of canning. None of my canned goods have spoiled."

A fourteen-year-old canning club girl in Boyle County, Kentucky, is the daughter of a widow. There are

four younger children. They own their own home, a comfortable cottage with two acres of ground, and the mother sews to support the five girls. Last year the oldest little girl joined the local canning club. Besides canning for the family's use she canned tomatoes for sale. With proceeds from the first cans she bought shoes for herself and her sisters, but the bulk of the products were sent away for sale.

The cost of living rose in Boyle County during the war, as elsewhere, while the pay for sewing staid on a pre-war basis. Tax day came and the mother of the five for the first time had no money to pay. The property was advertised to be sold for taxes. A few days before the date of the sale, a letter came to the club member. All her canned tomatoes had been sold and the check for them was inclosed. The amount more than covered the taxes and their house is their own again.

Gross receipts of the five great London traffic carriers for 1918 showed a gain of more than \$5,000,000 over 1917.

Louie Lavell, Anderson Fighter, is Meeting all 122 Pounders

Anderson, Ind., July 29.—Louie Lavell, Anderson bantamweight idol, is beginning to reap a big harvest by making sleeping beauties out of Indiana and Ohio's 122 pounders. The local lad is being boosted in all parts of the country and will get a chance to make good on a trip to the Southland.

Promoters at Atlanta, New Orleans, Montgomery, Ala., and Memphis have sent word that they want the Anderson boy on big cards in the south and Cincinnati matchmakers will have Louie in the Queen city stacked up against Dave Sandow of Cincinnati and Al Lester of Dayton.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, rubbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Tiredness, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-feren is without doubt the grandest remedy for nervous, rundown, weak, anemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

armories on the south side, but by midnight four regiments were in that time the police had cleared the streets for the night and began collecting the dead and injured and rounding up looters.

The affair Sunday night whetted the appetites of hundreds who had long grieved at the rapid influx of negroes who have spread over a large territory formerly constituting a fine home district of the south side. Property had decreased in value and whites had migrated to other parts of the city by thousands, but many others had clung to their homes, while the streets and one of the large parks became thronged with negroes.

Both sides were fired by the stories of the cruelties of the other in Sunday night's melee, deliberately armed themselves last night and went out to stalk their prey. As soon as darkness fell the fighting in various forms became fierce.

Secretary Glass hopes to make the distribution of the new certificates as wide-spread as possible, believing that their investment value has been demonstrated to buyers in previous issues. He asserted in his letter that banking institutions aiding in the distribution of the certificates have found compensation for their trouble in the deposits resulting from the treasury's practice of making each bank the depositary of the proceeds of certificates purchased.

tack by Germany might prove fatal.

The United States, the president pointed out, owes France a special debt of gratitude which we can never fully repay. But this treaty, he urged, will be an expression in the fullest sense of our gratitude for French help in winning our independence. It was this, he said, which moved him as much as anything else to sign the treaty.

The president took occasion to urge early ratification not only of this treaty but of the peace treaty as well.

The president's message arrived at the senate chamber soon after the senate met. It was not until an hour later that Senator Lodge found opportunity to lay the message before the senate in open session.

The treaty was at once referred to the foreign relations committee.

President Wilson was to present to the senate the text of the proposed British-French-American defense agreement, today it was announced at the White House this morning.

The president was not to go to the capitol in person but planned to send with the text a short message to be read to the senate.

The president's coast-to-coast trip on behalf of the league covenant will last thirty days, it was said.

All plans have been finished for the speeches in about 25 principal cities. The date of departure remains uncertain. It was said the president may find it advisable to delay his start until August 15.

He will confer with Secretary Daniels, probably today, concerning

the advisability of having the Pacific fleet await his arrival before entering San Francisco harbor.

According to published versions of the treaty, it contains a provision stipulating that it be given to the senate "at the same time" as the treaty of Versailles, which the President submitted in person July 10. When criticism of the delay first was made in the senate, White House officials said the intention was to submit the treaty after the President's speaking tour. In his talk with senators yesterday, however, the President is said to have made clear that he certainly would send it to the senate before he leaves Washington.

President Wilson had engaged

ments today with only two Democratic senators—Swanson of Virginia, and Underwood, of Alabama. He also arranged to see Representatives Alexander (Democrat), of Missouri and John W. Rainey (Democrat) of Illinois, as well as to preside at the regular Tuesday cabinet meeting this afternoon.

Two Democrats, Senators Thomas of Colorado and Gay, of Louisiana, were scheduled for speeches in the senate today on the league.

The Buick Model K-Six-44

### Buick Three-Passenger Roadster

THE BUICK Model K-Six-44 possesses marked advantages for the man or woman who wishes a car of limited passenger capacity, with an exceptionally roomy and comfortable driving compartment. This three-passenger model makes the most of these desirable features, without sacrificing one whit of the modish appearance that belongs to the type.

The body is distinctly a Buick creation, broadening out to accommodate a wide, deep seat for three, then curving in at the back to form a trim rear deck with a weatherproof carrying space for luggage.

The dimensions of the driving compartment insure easy entrance or exit from either side, with the control and brake levers well forward but within easy reach. The French pleated upholstery is built for long wear and comfort.

Inclined windshield, handsome improved top of high grade material, side curtains that swing open with the doors.

(By United Press.)

Washington, July 29.—America is bound by its debt to France to ratify the treaty pledging military aid to that nation in event of an unprovoked attack. President Wilson told the senate today in submitting the French-American-British defensive agreement for ratification.

The president's address was in message form. He did not go to the capitol. He explained that the situation of France seemed to require a special temporary pact under which the United States and Great Britain volunteer to anticipate action of the league of nations by going immediately to the aid of France should Germany strike.

He made it plain that as soon as the league council shall decide the league itself is sufficient guarantee of France's safety, the special treaty will no longer remain in force.

The president emphasized, that there is no doubt expressed or implied, in France's urgent request for the special treaty, of the ultimate efficiency of the league. But he added, "the years immediately ahead of us contain many uncalculable possibilities." He explained how the league is empowered only to advise military action by members; how that it might involve delay which in the case of surprise attack.

## AL G. ROBERTSON DIES AT HOME HERE

Expires Monday Night of Anemia  
and Cancer of Liver at the  
Age of 59 Years

### FUNERAL TOMORROW AT 2:30

Al G. Robertson, a well known resident of this city, died last evening about ten o'clock at his home, 334 East Tenth street, following a long illness from anemia and cancer of the liver. Mr. Robertson was 59 years of age last December.

The deceased was born in Shelbyville, Indiana, and came here when he was 25 years old, having lived here since. He was a painter and decorator, by trade, and was very well known in this city and vicinity.

Six children and a widow survive, the children being, Mrs. W. R. Matney of Indianapolis, Ralph of Chicago, Earl, Luelle, Nina and Lorene of this city; two sisters, Mrs. Laura Demison of Hammond and Mrs. Margaret Reed of Indianapolis, and a brother, William, of Shelbyville. He is also survived by two grandchildren.

Burial will be made tomorrow afternoon in East Hill cemetery, and services will be conducted at his late residence at 2:30 o'clock by the Rev. L. E. Brown.

Clem Gardner is—Rendered Unconscious by Blow From Horse

Clem Gardner, a farmer living southwest of Rushville, was rendered unconscious this morning when he was kicked by a horse, while at work near his place. Gardner was at first thought to have been seriously injured, as the horse kicked him directly above the heart, rendering him unconscious, but he was revived by a physician, and an examination revealed that no bones were broken. The accident was very painful and it is considered fortunate that Mr. Gardner was not more seriously injured.

## NO BIDS TO SUPPLY CURRENT ARE MADE

City Council Will Likely Go Ahead  
With Plans to Build an Addition to The Plant

### SPECIAL MEETING LAST NIGHT

Councilmen First Try to Buy Current to Meet Extra Demands Being Made on Local

The city council met last night in a special session, and the business before them was quickly transacted. There were no bids submitted for the supplying of the city with electric current to relieve the drain on the plant during heavy working hours, and the idea has been abandoned, of having outside current run in on the local switch board.

It is probable that at the next regular meeting of the council, plans will be advanced again for the construction of an addition to the plant, and extra equipment installed, which will take care of the demand for electricity. A few weeks ago, a committee from the council was appointed to investigate the need, and to draw up plans for the building of an addition, but at that time it was deemed better to advertise for outside bids.

The other business to come before the council was to receive bids for a truck, to be used by the city water and light plant. Two local men had bids in, and a committee from the council, consisting of R. F. Sender, A. P. Wagoner and Chase Manzy, were appointed to investigate the trucks and were given power to purchase the one which suited them best.

Following the short meeting last night, the committee went out and examined the trucks, but has not yet reached an agreement, as to which was to be purchased.

All the councilmen were present last night, but Mayor Irvin was called away shortly before convening, and Mr. Wagoner presided over the meeting during the session.

The sergeant was court martialed but acquitted on the ground that he had obeyed orders of his superior officer, according to Long's story. Mrs. Frye said that she had been notified by the department of her son's death but had received no details.

## TAX LAW TEST CASE OF INTEREST HERE

Attorneys and Other Local People  
Speculate as to Whether New  
Statute Will Stand

### WILL GO TO SUPREME COURT

New Dog Tax Law Also to Meet  
Opposition in Courts—No Effect  
On Enforcement

Considerable interest is manifested here in the proposed test cases to be filed in Marion county to determine the validity of the new tax law. Opinion here is divided as to whether or not the measure will stand, although many believe that some sections will be declared void while others will remain in force following the decision of the supreme court.

One argument advanced here is that the old tax law was in force on March 1, the date when the reappraisal of property throughout Indiana was started. The new tax law did not become effective until twelve days later, and the property that was assessed under the former law was reassessed under the new law. Some local attorneys believe this would invalidate the law so far as this year is concerned. On the other hand, other attorneys insist that the conflict in dates is not material so long as all property throughout the state was assessed on the same basis, which was done.

Indianapolis banks are resisting the law on the ground that their capital stock has been assessed by the state board and their real estate by the county assessors. They contend that the state board of tax commissioners refuse to deduct the reappraisal of their real estate which means that they are paying double taxes on it. Notice is given that the test case will be filed and the fight against the law will likely be made from several different angles.

The new dog tax law which became effective with the taxing measure is meeting opposition in several parts of the state. S. B. Wells, at

## BOTH NEW WELLS ARE NOW SUPPLYING WATER

Are Pumping at Rate of 325 Gallons  
a Minute, Which Gives City  
Ample Supply.

### OLD WELLS BEING CLEANED

The reservoir at the water and light plant is now being supplied by pure water, pumped by electricity from two of the finest wells that have ever supplied water for this city. Last week the new well, located on the Stewart farm, southwest of the city, was connected and the other well recently finished, is also pumping water into the reservoir. The two are supplying water at the rate of 325 gallons a minute.

The consumption of water is any place from 100 to 700 gallons a minute during the day time, and the wells are run continuously, which keeps the reservoir very well filled.

With the addition of these two new wells, Rushville today has a better water supply than it ever has had before. The new wells are electrically pumped, instead of air pumped, making three such wells. In all there are eleven wells owned by the city and the other eight are air pumped. At present the nine wells which are not used, are being cleaned and put into first class shape, so that they can be pumped at any time they might be needed.

## EXPECT NOTICE ON SHORT TERM NOTES

Local Bankers Hear That Issue of  
Loan Certificates Will be  
Forthcoming August 1

### WILL MATURE IN FIVE MONTHS

Will Bear 4 1/2 Percent Interest Same  
as Tax Certificates Which  
Have Been on Market

By Thursday at least, local bankers are expecting an announcement from Secretary of Treasury Glass concerning the new loan certificates of five months maturity, bearing 4 1/2 percent interest, which will be issued by the treasury department semi-monthly, beginning August 1, for the remainder of the calendar year, for the purpose of financing the government's requirements.

Lately the government has been depending on tax certificates, which are practically the same as the loan certificates, to meet its obligations. Rushville banks have been buying them since July 1, when the first issue, maturing December 15, was put on the market. Another issue came out July 15 and will mature March 15, 1920.

In making this announcement in a letter to the banking institutions of the country Secretary Carter Glass said the minimum amount of each issue in August and September would not exceed \$500,000,000, while subsequent issues would be half that amount, with the total estimated to be \$35,000,000.

The same period will witness the redemption of \$2,997,540,500 in loan and tax certificates, leaving a net increase of \$502,459,500 to be funded by the issue of short term notes, when market conditions are favorable and the terms advantageous to the government.

All national and state banks and trust companies will be expected to take not less than 1.6 per cent of gross resources in each semi-monthly issue of loan certificates during August and September, with the percentage falling to .8 per cent toward the end of the year. The pro-

## WOMEN INTERESTED IN EDITORS MEETING

Delegations Going From Many of the  
County Seats in Sixth District  
to Magnesia Springs

### 20 CARS FROM GREENSBURG

Women are taking more than ordinary interest in the mid-summer meeting of the Indiana Republican Editorial association, which will be held at Magnesia Springs Friday. From all parts of the sixth congressional district, which will be more generally represented than any other section of the state, come reports of delegations of women who are preparing to attend.

Esther Griffin White, a newspaper writer of Richmond, who has taken an active interest in the suffrage movement will lead a large representation of women from Richmond. The Wayne county seat will also send a band and a big delegation to boost the candidacy of L. S. Bowman, deputy state auditor, who formerly lived at Richmond, for the nomination for state auditor.

At least twenty machines, loaded to capacity, will represent Greensburg at the meeting, and Newcastle also has laid plans to send a big motor delegation. Many from here are going in machines and others expect to go to Connersville on the I. & C. and take the special train to Brookville at 11 o'clock.

County Morning and Afternoon  
of Aug. 12 and 13.

### LEROY JONES WILL BE HERE.

Purdue Men Making Tour of Every  
County in State in Interest of Egg  
Production.

Plans have been about completed for the two day meeting here of poultry men and the representative of Purdue extension department on August 12 and 13, when an egg culling contest will be held. LeRoy Jones of Purdue will be here and meet with the farmers who are interested in egg culling.

Meetings have been arranged for different places in the county, and at 9:30, August 12 a meeting will be held either at John Zeigler's or on Mrs. Blackledge's place. At two o'clock of the same day a meeting will be held at Jack Hall's, one mile north of Raleigh.

The meetings for the next day will be at Clifford King's in the morning at 9:30 and at two in the afternoon at Frank Offutt's, in Arlington. A similar meeting will also be held before noon at Ed Austin's in New Salem.

Much interest has been shown in counties around here with their egg culling contests, and every farmer in the county can profit by attending these meetings, it is declared. Purdue extension department is making a tour of every county in the state during the months of July and August in the interest of egg production. Mr. Jones was here two weeks ago and met with the egg record keepers for this county, and plans were then made for the demonstration which will be held in this county on the two days, August 12 and 13.

## MARINE STRIKE SETTLED

Engineers Agree to Terms and Ships  
Are Moving Again

New York, July 29.—The strike which for about three weeks has tied up shipping along the Atlantic and gulf seaboard, was finally settled last night when an agreement on wages was reached with the marine engineers. William S. Brown, national president of the engineers union, immediately sent out orders to move ships without delay. Under the agreement, chief engineers win their demand for wage increases ranging from \$92.50 to \$100 a month, according to the class of ships, which gives them not less than \$25 a month less than masters. Assistant engineers gain from \$35 a month for first assistant engineers to \$10 for junior engineers, and masters are granted, without any demand on their part, an increase of 10 per cent.

Rioting, Suppressed in Black Belt,  
Flares up Elsewhere in City  
During The Day

(By United Press.)

Chicago, July 29.—The list of known dead in Chicago's race riot was increased to 21 today, when a white youth was shot and killed by a negro woman just outside the city business district. The woman was arrested.

Two negroes were killed in the loop today. Police and other observers said the dead would exceed that number.

The injured number over 110 in stabbed, shot and beaten. White and blacks were about evenly divided among the injured.

Police stations in the negro district were well filled with injured and frightened residents of the black belt, seeking protection.

State militiamen were held fully equipped with rioting ammunition, in their armories.

Governor Lowden, here to confer with city officials over the riot and street car strike, instructed the adjutant general to rush troops to the rioting districts whenever police called for help.

City officials said the situation was under control and troops probably will not be needed.

All available police reserves were posted in the black belt.

The disorders spread today to the north side of the city, where a number of negroes were pursued and threatened.

The riot suppression reached in the black belt, flared up in other sections of the city throughout the morning. There was shooting and stabbing, mostly by small gangs, when they were out from the disorders.

### RADICALS CONTROL MEETING

(By United Press.)

Chicago, July 29.—Chicago was caught today by a surprise strike of traction company employees who housed their cars at four a. m. Both elevated and surface line employees rejected a compromise in their wage controversy.

Fifteen thousand men refused an offer of 20 cents an hour increase. The strike decision came late last night when street car men in a riotous meeting were carried along by radicals to demand 77 percent raise. "Strike, strike, strike" was reiterated from the time the meeting began.

Department stores, factories and other big business houses, began early sending delivery trucks, motorcycles and motor cars for their employees.

## BANK PRESIDENT ON TRIAL TODAY

**Demas Deming, Aged 78, Faces a Charge of Bootlegging After a on His Home.**

**WAS STOLEN LAST MONDAY.**

**Two Men Entered Basement, Took Wine and Were Caught, But Told Where They Got it.**

Terre Haute, Ind., July 29.—Demas Deming, 78; wealthy president of the First National Bank and other financial institutions here, was to be tried today on a charge of violating the state prohibition law.

The cellar of the Deming mansion was raided recently and the millionaire was arrested when two men found with a quantity of liquor said they had taken it from the cellar. The raid did not reveal any whiskey.

A. X. Thomas, city court prosecutor, prepared to meet what he considers the two main points of the defense: First, that the police found no whiskey or wines in the big wine cellars under the Deming mansion; and second, that if Deming and second, that if Deming did have whiskey there, it was for his use and not for sale.

Thomas pointed out that the city court has repeatedly held in similar cases, where the defendant as a poor man, that a quantity of liquor over a gallon was prima facie evidence that it was for sale.

The state relies on the sworn statements of William C. Mitchell, a painter, of this city, and Walter Followell, 39, Indianapolis, that they entered the wine cellar at the Deming home early last Monday and stole twenty-two quarts of whiskey and a quart of gin.

The two alleged burglars were caught by the police with the whiskey in a gunny sack in an alley a short distance from the banker's home about 3 a. m. Monday. A taxi cab driver, who told the police he was hired by the two painters to meet them in an alley, here the police to the meeting place.

Both men signed purported confessions and repeated on the witness stand that they stole the whiskey from the Deming wine cellar.

Mitchell, who had been employed at the Deming home, said the wine cellar contained at least a hundred quarts of "booze" while Followell contended that there was at least six hundred quarts.

Oscar Bonham, one of the officers who searched the house, stated there was evidence that bottles has been hurriedly removed from the wine racks as well as from boxes in the wine cellar. He also reported that one of the big touring cars at the Deming home was not in the garage at the time of the search.

Bonham also reported that a cork of a whisky bottle was found in a large basket in the cellar. Deming denied possession of the whisky.

## TO FORECLOSE LIEN ON 12-CYLINDER CAR

**Continental Finance and Securities Co. Also Seeks to Replevin W. E. Cook's Auto**

The Continental Finance and Securities Company of Indianapolis has filed a suit against Wilbur E. Cook of Manilla on a replevin complaint and to foreclose a lien, asking judgment in the sum of \$900.

Cook borrowed the sum of \$602 from the Indianapolis concern, according to the complaint, and gave his twelve-cylinder automobile as security. Payments on the amount were to have been made in twelve monthly installments, with interest and attorney fees, but it is stated that after the second payment, the company was unable to collect anything further.

The Indianapolis company is asking judgment against Cook for a twelve cylinder car in the sum of \$700 and judgment for the \$200 damages, and asks that the car be sold to pay for the above amounts.

## HOUSE COMMITTEE BEGINS PROBE TODAY

Three Prisoners at Fort Jay Testify at Investigation of Prison Conditions of A. E. F.

### COMMITTEE TO GO TO FRANCE

New York, July 29.—Former Lieutenant F. H. Smith, also known as "Hardboiled" Smith, and former Sergeant Clarence Ball and a third prisoner, at Ft. Jay, Governor's Island, were the first witnesses to be called before the house sub-committee headed by the Congressman Royall C. Johnson, of South Dakota, investigating prison conditions in the American expeditionary forces, at its hearings begun here today. The committee is to sail for France August 7, to continue its inquiry into prison conditions there. While these three prisoners were the only witnesses called in advance it is expected that the hearing will develop disclosures that will bring other inmates of "the castle" to the stand. It is said that there are 14 number there who were in the prison commanded by Smith and Ball.

## Dowagiac Steerable One-Horse Disc

The front wheel is a "caster" wheel permitting a short turn without lifting the drill and making steering between crooked rows easy.

The feeds are chain-driven from the axle of the two rear wheels which have ratchet hubs making both wheels drivers.

The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn. Each disc has independent up and down motion with spring pressure—the only way for uniform depth on uneven ground. With the convenient lever all discs are lifted when turning or transporting the drill to and from the field.

Everett McHenry, Who Was at A. E. F. Headquarters, Has Returned

Everett McHenry, son of Mr. and Mrs. Jess McHenry of Richland township, who was stationed at American headquarters at Chaumont, France, during the war, has returned to his home, having been discharged in an eastern camp. Private McHenry was overseas for seventeen months and sailed from Brest July 13, landing six days later. He was attached to general headquarters, where General Pershing was located after America began to take an active part in the war, and was employed driving motor cars for officers.

LEWISVILLE DEFEATS CONNERSVILLE TEAM

Reserves Fall Before Onslaughts of Razz Jazz Babies by Score of Two to One

CENTERVILLE NEXT VICTIM

Lewisville, Ind., July 29.—The Razz Jazz Babies, Lewisville's popular ball team, Sunday defeated the Connersville Reserves, fast semipro, by the score of 2 and 1, in an errorless game. Hickman and Battison pitched for the locals. The Connersville team had, the preceding Sunday defeated the Arlington nine by the score 15 and 2, and are listed among the fastest clubs in eastern Indiana.

The Babies have a record almost unequalled. They have defeated every team they have played this season with one exception, Newcastle, and will have a return game with this club August 10, when they expect to perfect their score. Centerville plays at Lewisville Sunday.

A few dates are open with the Lewisville club. Address Omar S. Poelle.

Amusements

Serial to Begin at Mystic

The first episode of a serial "Elmo The Mighty," in which Elmo Lincoln hero of "Tarzan," is cast in the leading role, will be shown at the Mystic theater Thursday. Lincoln as Capt. Robert Armstrong, who has returned from service overseas to become a forest ranger, renews an acquaintance with Lucille Gray, whom he met when she was in the Red Cross service in France, and who has returned to her father's home in the West.

Gray is the Western manager of a great timber syndicate. He has been away, and returns at the same time that Lucille does. In his absence, scoundrels in the company have defrauded the government of half a million dollars on a tie contract. To save themselves they implicate Gray.

Gray attempts to get proof of his innocence from Strang, manager of the company's bank. They quarrel and Strang is killed by a mysterious shot. Gray thinks he has killed him and flees to the Mad Mountains—so called by the Indians, who believe them to be haunted by spirits of the departed, and particularly by the Phantom Menace, a cloaked figure appearing mysteriously on a motorcycle and hiding no man knows where.

The scoundrels of the company seek to get possession of the suitcase full of documents and money which Gray took with him. Gray seeks to retain it. Lucille, aided by Armstrong, seek to find Gray, and so bring themselves under the wrath

of the swindling crew, who are aided by a mountain' enthrout, Rawden.

The action wages furiously. Peril after peril is encountered by the herculean Armstrong and his plucky sweetheart.

Ethel Clayton at Princess

In her new picture "Men, Women and Money," which will be presented at the Princess tonight, beautiful Ethel Clayton plays a captivating role, that of Marcel Middleton, a society girl.

Marcel's parents have sent her to an exclusive girls' finishing school in the East and she becomes enamored of society's ways, as one of her chums is a member of the smart set. Therefore, when the chum invites her to spend the summer vacation with her at her eastern home, Marcel's parents mortgage their little home that she may accept the invitation.

Marcel makes an impression among the society idlers, even incurring the hatred of her hostess, who jealously loves one of Marcel's new admirers. Marcel's parents are killed in an automobile accident and after settling up the estate, she returns to the East and rents an expensive apartment. When her money runs out, her friends desert and insult her.

This is her awakening and she starts to work to pay off her debts, thereby winning the respect and love of the man who had insulted her. He now changes his way of living also and sets out to win the girl whom he now loves.

How he succeeds forms one of the most pleasing romances of the day.

While in search of George Anderson, negro desperado who escaped from the Muncie jail last week, officers found William Huffman, colored, of Canton, Ohio, in a thicket on the William Fentress farm north of Carthage, Sunday night.

Huffman disappeared from Carthage on Wednesday, July 16, and all efforts to locate him had failed. His friends made inquiries at Rushville, Connersville and other nearby cities without avail. He suffered from an attack of influenza several months ago and came to Carthage to spend the summer. His illness is believed to have caused him to become temporarily insane. He was surrounded by the officers and taken to Knightstown where he was later identified by a friend. He had had nothing to eat but blackberries since wandering into the country.

Anderson, who broke jail at Muncie July 23, was captured last night in a thicket in the northern part of Henry county and returned to Muncie.

### The Gathering Cloud

At the beginning of 1915 a long series of demands was made on China by the Japanese. Among them were extensions of the lease on Port Arthur and on Dairen for a century. The effect of these leases were to transfer to Japan the control of all of the mines in south Manchuria and eastern inner Mongolia, including some of the richest mines in the world. Usually a supreme stroke in the direction of territorial aggrandizement by one power results in interference by all other powers directly or remote interested. In this case the powers most directly interested—next to China—were Germany and Russia, and at the beginning of 1915 (when this happened) they were still more interested in something else. They had been fighting each other for four months.

So the Japanese took hold. But all that they acquired then is insignificant compared with their present demands. The effect of their forces China to employ Japanese advisers in political, financial and military affairs; to establish police departments in important places in China, to be jointly administered by the Chinese and Japanese governments; to purchase from Japan a fixed amount of munitions of war; and to give Japan the right of constructing railways connecting the cities of Wuchang, Kinkiang, Nanchang, Hangchow and Chao-chow.

We may say that it amounts to a protectorate over all China. And it only falls short of annexation be-

People with the finest homes do the most gadding.

About the only diet that gives good results is a little plain food and a lot of chewing.

Hez Heck says: "Chiggers, poison ivy and the high cost of living sure do keep a fellow scratching."

One of the happiest moments in a woman's life is when she tells her doctor all about her physical troubles.

Society is having a hard time finding something new to shock us, having already done everything but pose publicly in the "altogether."

Before marriage a girl brags to her beau what a good cook she is, and after marriage her highest ambition is to shift the cooking to a hired girl.

When you get along in years and see how some of your old sweethearts have turned out, you lift up a prayer of gratitude that somebody else got 'em.

cause annexation must of necessity be gradual. A country with 400,000,000 inhabitants is too vast to be annexed all at once. But that the process of annexation is well under way no one can doubt.

Well, what is this to us, you ask? It is simply this. The whole of eastern Asia is, in fact or in prospect, Japanese. Facing our Pacific coast is the Asiatic coast—administered by a power that controls resources as rich as our own, and which is united in one national purpose, instead of being divided into a number of political parties with contrary aims.

And to the Japanese we deny citizenship, although we grant it to Mexicans, Turks, Syrians and negroes. Here is cause for international friction, if there were no other cause—friction with a determined antagonist whose resources are boundless, and who is just waiting for the psychological moment to hurl his armies against us.

We can face the fact with calmness, if we are prepared. But are we prepared?

And now, Mr. President, we suggest a league of industry that will prevent these eternal scraps between capital and labor and restore something like public confidence in our commercial system. Let's clean our own house while we are about it.

Don't spend all of your time swatting the fly. Hand the Bolshevik a few while you are about it—for the good of your country.

## RADICALS ARE QUIETING DOWN

Opinion is That Any Danger of an Overthrow of Government in Britain is Unlikely

### WORKER STILL TO DEAL WITH

Only Out-and-Out Announced Bolshevik Leader Has Been Quiet For Several Months

(By United Press.)

London, (By Mail).—Radical fanaticism, or what is better known as Bolshevism, is quieting down in Britain. Here and there outbursts continue, but they are only spasmodic, and the general opinion is that any danger of an overthrow of the government except by constitutional means is unlikely.

Britain's success in combatting the radicals, is credited here to the moderate manner with which the radicals were dealt with. Only once or twice was it necessary to threaten armed force and this threat did not materialize.

"Give them plenty of rope and they will hang themselves," was the attitude taken towards the extremists, with the result that the plain citizen of Britain today exhibits little sympathy with radicalism.

Though meetings were held at which extremists of the most radical type made fervent speeches to huge audiences, they failed to spur the liberal element to violence. They did help to speed labor to an awakening of its power with the result that all over the United Kingdom men and women today are earning higher wages and working shorter hours.

Though radicalism, as represented in an effort to foster a revolution, has quieted, the government still has to deal with the worker. His vast power was shown to him when the government practically surrendered to the British miners in face of a strike of the miners, railwaymen and transport workers.

Such extremists as Ramsay MacDonald and Mrs. Phillip Snowden are still active. George Bernard Shaw, the famous novelist, continues contributing his support by his ever-humorous quips and semi-serious remarks. George Lansbury is editing the London Daily Herald, Britain's labor organ, and Arthur Henderson, secretary of the Labor

Party, is helping Lloyd George on the labor problem at the peace conference. All these, however, are constitutional radicals.

The only out-and-out announced Bolshevik leader, Billy Watson, has been quiet for several months. The last time he was in the public spotlight was when the police arrested him for speaking. Several others of his supporters were rounded up and either deported or locked up.

Trafalgar Square, the great meeting place for radicals, still "carries on," but a "Bobby" (London policeman) stands by to see that there is no disorder.

Efforts to unionize the police have relaxed temporarily. This was due to the government's offer to increase pay, a semi-recognition of the men's right to present their side of a grievance, and the unshaking determination of the government to utilize several thousand willing discharged soldiers and sailors as strike-breakers.

## BOOST SALES WITH PERSONAL LETTERS

County Chairman in the W. S. S. Movement Adopt Plan For the New Savings Certificates

IS SUGGESTED BY L. C. MANN

Indianapolis, Ind., July 29.—County Chairman in the W. S. S. movement, together with postmasters of Indiana, are adopting a personal letter as the means of boosting sales of the new \$100 and \$1,000 Treasury Savings Certificates. L. C. Mann, of Warsaw, postmaster and county chairman, suggested the idea, having tried it and found that Kosciusko county people listened readily to his arguments. Among others trying it out are Curtis S. Miller, chairman of Huntington, Arthur P. Bonarras, chairman of Auburn, Bert E. Kimmell, postmaster of Howe, Henry Schaaf, postmaster of Michigan City, and W. S. Ellis, chairman, and L. E. Reeves, vice-chairman, of Anderson.

The \$100 Certificates will sell for \$83.60 in July, and \$83.80 in August, at postoffices. Banks and trust companies will handle the \$1,000 Certificates, which sell for \$836.00 in July, \$838.00 in August, and \$2.00 more each succeeding month until December 31, 1919. Early indications are that these new securities will be decidedly popular throughout the state.

### Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

One of the wittiest sayings of the late Thomas Brackett Reed was incited by the rather sombre dinners staged by Benjamin Harrison as the Nation's chief executive. President Harrison was not exactly a mixer. It is of record that wild cheers for him were tributes to his deceased ancestor of Tippecanoe fame. When Reed was asked if he would attend a certain Friday evening dinner at the White House he said: "No! And I can't say that I enjoy those dinners. They are so apt to open the oysters with prayers."

A prize of one dollar will be awarded for all funny stories which are accepted for this column. They should be brief and to the point.

### HOUSE REPEALS SODA TAX

Removal Entirely is in Prospect Following Vote Monday.

Repeal of the ten per cent war tax of soda water, ice cream and other drinks sold at soda fountains, was in prospect today following the passage by the national house of representatives, late yesterday, of a bill to take the tax off.

This is one war tax that has come in for considerable criticism. It was passed in the guise of a luxury tax, but patrons of the soda fountains refuse to be convinced that refreshing drinks in the summer time are a luxury.

## ONE PRISONER TAKEN IN FIRST S.A. ATTACK

Revival Begins at Church With Evangelist Joe Wainscott of Shelbyville in Charge

### ADVANCE ON SIN STARTS

A large crowd gathered at the Salvation Army church Sunday night and witnessed the advance movement against sin, says an announcement about the beginning of the revival.

Sharp at the time announced the forward signal was given and the singing of "The Fight is On" set every one on edge for the over the top movement for Jesus.

The commander of the Shelbyville heavy artillery, Evangelist Joe Wainscott brought the message of the evening, using for his text: "Sanctify Thyself for God is prepared to do Wonders Among You Tomorrow." This text formed the basis of a very powerful appeal for each Christian to be at their best, that souls might be won for Christ.

One prisoner was taken from the enemy's trench.

Next meeting will be Tuesday evening at 8 p. m. At 7:45 prayer meeting will be held in the Glory Room.

## BEARDSLEY WINS FRENCH WAR CROSS

"Average New Yorker" Has Been Recognized by the French Army in Awarding Croix De Guerre

COMMISSION WITH RED CROSS.

He Was a Broker Over 42, Had Been Twice Refused by Army and Had Wife and Two Children.

(By United Press.)  
Paris, (By Mail).—The services that the "Average New Yorker", over the military age, rendered at the front in France, have been recognized by the French Army in the award, announced today, of the Croix de Guerre to Sterling S. Beardsley, a New York cotton broker. Beardsley served for nine months with the American Red Cross as a canteen worker in the fighting zone. Marshal Petain was the signer of his citation.

Captain Beardsley gained the

nickname of "The Average New Yorker" in the press dispatches. The idea conveyed was that Beardsley's situation in life at the time America entered the war was about the average of thousands of New York business men. He was a broker, over 42, had been twice refused by the Army, had a wife and two children. He bought Liberty Bonds, contributed to the welfare organizations and joined in various "win the war" activities.

But somehow this work did not suffice him and so he obtained a commission with the Red Cross. He sailed for France in January, 1918. Two months later he was in the midst of the biggest offensive the German armies had ever attempted—the Somme drive of March, 1918. Beardsley had never made a cup of chocolate or performed any kitchen labor in his life. But the night he reached the front on top of a rolling soup kitchen he started to scour pots and pans. He explained that he "just figured out" that they ought to be clean.

That night the enemy airmen came over where his soup kitchen was set up and he had to sleep in a damp, rat-infested wine cellar. Next day he set to work to make coffee, cocoa and soup by the gallon. Two weeks later when he took his clothes off for the first time since his arrival, he realized that he had become a first-class soup chef.

He stayed at his soup kitchen in Compiègne for two months. Then he had orders to move to the Marne. He set up his kitchen in Chateau-Thierry. Forced out of there, he went on to another town where he found a hospital full of wounded with insufficient medical staff. He scrubbed floors and aided the doctors at operations and served soup and coffee from his canteen "on the side".

## AIRPLANE MOTORS DISTURBING SLEEP

With Fact Apparent That Airplane Industry Will be Prominent Paris Wants New Laws.

MIGHT NEED THEM HERE

Each Motor Must be Tested Out Before Placed in Machine, and Slumbers Would be Disturbed

(U. P. Staff Correspondent.)  
Paris, (By Mail).—With the certainty that aviation is quickly to become one of the big industries throughout the entire world, Paris has a little warning for all of her sister cities of America and every other country.

The warning is this. Enact immediately, either state, municipal, or national legislation, prohibiting the erection of airplane factories anywhere within hearing distance of where human beings have to live and sleep.

Otherwise, said human beings won't be able to sleep and will be driven in no time at all either into their graves or some faraway sanitarium.

Everyone knows how much rum-pus an airplane makes when it is flying thousands of feet overhead. Well, every airplane motor before it is mounted has to be tested and to be tested it is attached to a huge bench or platform and ran continuously at top speed, with hundreds of horse power back of it, for at least 24 hours and sometimes 48.

During that period of time nobody living within hearable distance can possibly sleep.

At Suresnes, where motors are tested for 48 hours, it has been necessary to close an adjacent school.

At Puteaux, the inhabitants declare they have not slept for months.

At Courbevoi the city council has resigned as a means of protest.

At Cliehy, the city had bought a large tract of land for the erection of a municipal hospital. Airplane factories during the war installed themselves in the vicinity and the medical authorities now refuse to let the city build its hospitals in such a death-dealing locality.

The Department of the Seine has been forced in the interest of public health to take measures to stop the airplane factories and get them moved into some isolated localities.

Germans Decorate Berlin With Lurid Posters and are Sending Them Broadcast.

SKULL IS FAVORITE THEME

Much Emphasis is Laid on an Exposition of the Results of Bolshevism

By CARL D. GROAT  
(U. P. Staff Correspondent.)

Berlin, (By Mail).—Bolshevism, or as it is called in German, "der Bolshewismus", is being fought with a famous German weapon—propaganda.

Lurid posters decorate Berlin; just as lurid pamphlets and handbills are being sent broadcast by the propagandists who seek to steer Germany clear of the system of the next door neighbor, Russia. Some of the anti-bolshevik posters have a tendency to keep one awake nights; they could easily be used to scare recalcitrant children.

The favorite theme in the propagandist poster is an admixture of skulls, clenching skeleton hands, fire, and ogres. One poster is of an ugly skeleton, bearing in its mouth a bloody dagger, while in the background is a scaffold. Its sole message to the public reads, "The Danger of Bolshevism". Another calls bolshevism a "sea of blood and an army of graves", while it portrays a crying woman before an expanse of graves, each marked with a humble wooden cross.

Much emphasis is laid on an exposition of the results of bolshevism—"war, unemployment, and hunger", and the handhook gives a series of figures to show what bolsheviks in Russia do and do not eat, what sufferings they endure, and so on, ad infinitum. Special appeals are made to protect the "fatherland, the home and the loved ones from bolshevism, which is the death of freedom, order and happiness.

The propagandist does not overlook the oft repeated story that, in various sections of bolshevized Russia, women are nationalized.

The anti-bolshevik fight is being conducted by an organization styling itself. The Union for Fighting Bolshevism. It now has a considerable membership which is understood to include a number of prominent and wealthy Germans.

That there is some fertile soil for bolshevism in Germany is certain; but, the German people do not want so radical an experiment in government or economics, and would be quite content with almost any regime which afforded them an opportunity to get away from unemployment, disorder and discontent. The German is too disciplined by long years in the Kaiser school to swing entirely to extremes, especially if he gets more freedom and a chance to live without such an experiment.

**PEPSINCO**

Sometimes in front just under the heart, sometimes around under the left side, under the ribs behind the heart it's a sharp or acute pains; sometimes a dull heavy pain, leaving soreness. It's gas on the inside generated through gaseous foods, or, because of systematic inability to properly assimilate the food, this gas soon collecting, forms a lump that causes the pain. This is only one of a dozen different indications which PEPSINCO immediately relieves. Keep PEPSINCO handy and take it the next time.

The beautiful country home of Allen S. Barnes, two miles east of New Salem, was the scene of a pleasant informal affair, Sunday, in honor of Mrs. Barnes' sister, Mrs. George Fulton of Texas, and her brother, A. C. Winchel, of Dayton, Ohio, who are spending a few weeks with relatives and friends in this county.

After the beautiful pitch-in dinner the guests were grouped together on the beautiful lawn and a photograph

taken of the following members present: Mr. and Mrs. Allen Barnes, Mr. and Mrs. George Fulton of Texas, Mr. and Mrs. Rame Fulton, and two sons, also of Texas, Mr. and Mrs. Enos McKibben and son Morris, Mr. and Mrs. John Murphy, Miss Mary Colvin, Mr. and Mrs. Owen Gwinnup, Mr. and Mrs. Luther Gwinnup and daughter Alene, Mr. and Mrs. John Fulton of Glenwood, Mr. and Mrs. Charley Fulton and Mrs. Julia Noah of Glenwood, Mr. and Mrs. Ross Stevens and son Lorraine, Mr. and Mrs. Bennie Stevens, Mrs. Elizabeth Linville, Ross Winchell and Mrs. Ella Smith of Anderson, Mr. and Mrs. Robert Porter of Connersville, Mr. and Mrs. Sylvester McKibben son and daughter, and Mr. and Mrs. Willie Linville. After a pleasant social evening all joined in singing the hymn, "God Be With You 'Till We Meet Again," after which they all departed for their respective homes.

Mr. and Mrs. J. M. Maple of near Glenwood entertained with a basket dinner Sunday in honor of Mrs. John Cramer and daughter Thelma of Charles City, Iowa, and Miss Blanche Petty of Wabash. The following guests were present: Mr. and Mrs. Ernest Maple of Norristown, Mr. and Mrs. Walter Maple and

family of Fairview, Mr. and Mrs. Fred Maple and family of Rushville, Mr. and Mrs. Walter Maple and family of New Salem, Mrs. Ethel Croddy and children of Rushville, Mrs. Zada Clark and children of Glenwood, Roscoe Wagner and Omer Coon.

Miss Edna Bever entertained with a prettily appointed dinner party at her home Sunday evening. A bouquet of summer flowers formed the centerpiece for the table and covers were laid for Miss Louise Sipe, Garrett Ricketts and Stanley Stewart.

Mr. and Mrs. Raymond Sharp and family, Mr. and Mrs. D. D. Sampson and son Doris and Oakley Sampson motored to Flatrock cave Sunday and enjoyed a picnic.

The War Mothers club will meet tomorrow afternoon in the G. A. R. room in the court house. All members are requested to be present.

Mrs. J. C. Sexton was hostess for the Five Hundred club yesterday afternoon at her home in North Main street. The guests enjoyed the hours playing Five Hundred over the card tables. At the close of the playing a dainty luncheon was enjoyed.

The members of the Monday Evening Bridge Club was entertained at the home of Mrs. Fred Caldwell, in North Morgan street, last evening. After several games of Bridge the hostess served light refreshments.

Mr. and Mrs. Walla Weakley and daughters Margaret and Joan and son Roy, and Miss Magdeline Arbuckle, of this city, were among the guests at a dinner party given by Mr. and Mrs. George Diekman, of Newcastle Sunday.

Miss Fern Jones and Herman Sampson of this city and Miss Ezetta Replogle of Muncie, were the week-end guests of Miss Mary Oldham of Newcastle.

The Pythian Sisters will have a call meeting tomorrow night for practice work. Every officer and every member of the degree staff are urged to be present.

The regular meeting of the Tri Kappa sorority was held at the home of Miss Jessie Anderson, south of the city, last night and arrangements were made for a pitch-in supper to be held at the home of Mrs. Will Norris, south of Carthage, next Monday evening, in honor of Miss Jessie Kitchen, who will move to Columbus this fall, and the Misses Bertha and Jessie Monjar, who will go to Los Angeles, California, in September for permanent residence.

Curtis Gahimer, son of Mr. and Mrs. Henry Gahimer of Arlington, but formerly of Blue Ridge, and Miss Mina McKinney, of Greenfield, were married Saturday at the home of the bride in Greenfield. Mr. Gahimer saw service overseas for some time. The young couple will reside on a farm near Arlington.

Mr. and Mrs. Rieger Williams and sons Charles and Don, of Peru, Ind., motored to this city and were the week-end guests of Mr. and

### HEADACHE Caused by Acid-Stomach

Yes, indeed, more often than you think. Because ACID-STOMACH, starting with indigestion, heartburn, belching, food-repeating, bloating and gas, if not checked, will eventually affect every vital organ of the body. Severe, blinding, splitting headaches are, therefore, of frequent occurrence as a result of this up-to-date condition.

Take EATONIC. It quickly banishes acid-stomach with its sour, bloating, pain and gas. It aids digestion—helps the stomach get full strength from every mouthful of food you eat. Millions of people are miserable, weak, sick and ailing because of ACID-STOMACH. Foodstuffs created by partly digested food charged with acid, are absorbed into the blood and distributed throughout the entire system. This often causes rheumatism, biliousness, cirrhosis of the liver, heart trouble, ulcers and even cancer of the stomach. It robs its victims of their health, undermines the strength of the most vigorous.

If you want to get back your physical and mental strength—eat of vim and vigor—enjoy life, and be happy, you must get rid of your acid-stomach.

In EATONIC you will find the very help you need and it's guaranteed. So get a box from your druggist today. If it fails to please you, return it and he will refund your money.

### CHICAGO RACE RIOT CLAIMS LIVES OF 21

Continued from Page One

frict so heavily patroled by officials.

Troubles of the police were increased on rumors that a mob was forming to march on the city jail to demand the release of Thomas Fitzgerald, charged with the murder of six-year-old Janet Wilkinson. Details were drawn from the reserve in response to that rumor.

The riot is termed here the most serious ever occurring in a northern city.

Governor Lowden appealed to the business men, negro leaders and city officials to get together and settle the difficulty.

Chicago's serious difficulties because of the street car strike were side-tracked, to assure action in quieting the rioters.

Four thousand troops were already today for duty. They have not been called for by city officials who believe that they have checked the rioting.

Police have been ordered to break up all gangs. Colored soldiers and police together keep pedestrians moving. Whites entering the district where rioting occurs are made to explain their business. Sale of firearms and munitions was prohibited.

Governor Lowden and Mayor Thompson, after receiving reports from police and officials, felt much encouraged over the situation this afternoon.

Mayor Thompson said the police have matters in their hands and possibly it will not be necessary to call out the militia.

Joseph Powers, white, a street car conductor was shot and killed soon after daylight in the stock yards district. William Henderson, a negro, was arrested on suspicion in connection with the killing.

An additional menace was seen today in the street car strike, with its disorganization of the city traffic system.

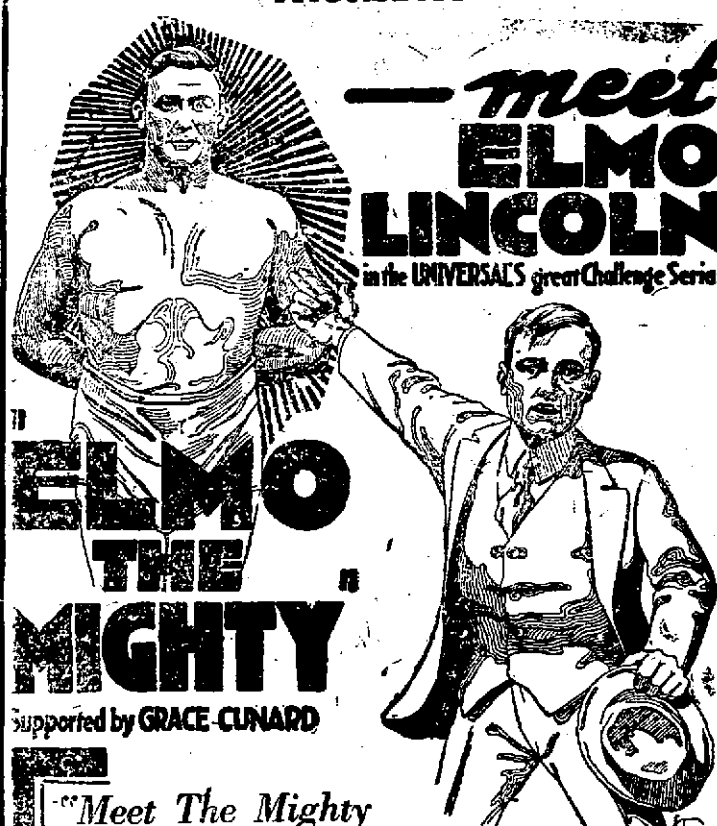

Scenes such as Chicago has not witnessed in years, if ever before, have been seen since Sunday. A 100,000 negroes and equal number of whites have either fought in the streets and alleys or cowered in their homes, while shots were fired, mounted policeman have galloped along the boulevards, patrol wagons have dashed through the streets with prisoners and wounded, women and children have screamed as men have fought with cudgels, knives and fists.

When the rioting, which started Sunday night with the stoning and drowning of a negro who had drifted on a raft into the water of a beach used by whites, broke out afresh last night, Mayor Thompson asked Governor Lowden for troops. The Governor, who was on his way to Lincoln, Neb., turned back at Burlington, Ia. In the meantime, Acting Governor Oglesby gave Adjutant-General Dickson orders to mobilize necessary soldiers. By

Financial Independence Thru Home Building

THE habit of thrift, started in many cases by war savings, may be made permanent through the buying of homes.

With your Liberty Bonds as collateral you can start building at once. Later payments will mean enforced saving for several years, but the goal is a home paid for, further investments in good securities and finally, financial independence.

Of course, you'll want to build well and to suit your own needs. It's our business to help you—show you plans, suggest the most economical materials and recommend a reliable contractor.

There's no obligation in consulting us.

They Canned Last Year Now You Can This Year

U. S. DEPARTMENT OF AGRICULTURE

Women in Cippewa County, Wisconsin, made some remarkable records last summer in canning fruits and vegetables. They put up 704,365 quarts of fruits and vegetables, with a total valuation of \$211,309.50. Not only the variety which the canned fruit and vegetables add to meals, but also the amount of money saved is appreciated by those who have learned from Uncle Sam how to can. This is one woman's appreciation:

"Last summer I learned to can by the method in which the product is cooked in the can, and tried it with fruit, vegetables, and meat. Whenever my husband goes to the store he asks what groceries are needed. This winter we have so many things in the cellar which I had canned that many time we do not need anything from the store. My husband says that we have never lived so well and so cheaply as we have since I learned this way of canning. None of my canned goods have spoiled!"

A fourteen-year-old canning club girl in Boyle County, Kentucky, is the daughter of a widow. There are

four younger children. They own their own home, a comfortable cottage with two acres of ground, and the mother sews to support the five girls. Last year the oldest little girl joined the local canning club. Besides canning for the family's use she canned tomatoes for sale. With proceeds from the first cans she bought shoes for herself and her sisters, but the bulk of the products were sent away for sale.

The cost of living rose in Boyle County during the war, as elsewhere, while the pay for sewing staid on a pre-war basis. Tax day came and the mother of the five for the first time had no money to pay. The property was advertised to be sold for taxes. A few days before the date of the sale, a letter came to the club member. All her canned tomatoes had been sold and the check for them was inclosed. The amount more than covered the taxes and their house is their own again.

Gross receipts of the five great London traffic carriers for 1918 showed a gain of more than \$5,000,000 over 1917.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork. By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Timidity, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves. People with plenty of red blood circulation and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but as men now go, a superman, you must take seven tablets of Bio-ferrin every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted. Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before; if you do not feel ambitious, more vigorous and keen-minded; the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

armories on the south side, but by midnight four regiments were in that time the police had cleared the streets for the night and began collecting the dead and injured and rounding up looters.

The affair Sunday night whetted the appetites of hundreds who had long grieved at the rapid influx of negroes who have spread over a large territory formerly constituting a fine home district of the south side. Property had decreased in value and whites had migrated to other parts of the city by thousands, but many others had clung to their homes, while the streets and one of the large parks became thronged with negroes.

Both sides caught by the stories of the cruelties of the other in Sunday night's melee, deliberately armed themselves last night and went out to stalk their prey. As soon as darkness fell the fighting in various forms became fierce.

### TAX LAW TEST CASE IS OF INTEREST HERE

torney at Scottsburg, has filed a case to test out this feature of the law. It is said that either side will carry it to the supreme court for decision.

Taxing officials are going ahead with their work the same as if there was no objection as the law stands until it is declared invalid. It is not believed likely that the cases will be decided in time to affect any payments next year even in case the measure is held unconstitutional.

gram may be varied by the substitution of tax certificates.

Secretary Glass hopes to make the distribution of the new certificates as widespread as possible, believing that their investment value has been demonstrated to buyers in previous issues. He asserted in his letter that banking institutions aiding in the distribution of the certificates have found compensation for their trouble in the deposits resulting from the treasury's practice of making each bank the depository of the proceeds of certificates purchased.

### BABY DAUGHTER DIES

Loita Pearl, baby daughter of Mr. and Mrs. George Burkman of North Arthur street, died today about noon, death being caused by acute indigestion. The baby was born on May 13, 1917. Funeral arrangements have not been made, but it is probable that burial will be made tomorrow afternoon.

### SAYS AMERICA IS BOUND BY DEBT TO ACT

Continued from Page One  
tack by Germany might prove fatal.

The United States, the president pointed out, owes France a special debt of gratitude which we can never fully repay. But this treaty, he urged, will be an expression in the fullest sense of our gratitude for French help in winning our independence. It was this, he said, which moved him as much as anything else to sign the treaty.

The president took occasion to urge early ratification not only of this treaty but of the peace treaty as well.

The president's message arrived at the senate chamber soon after the senate met. It was not until an hour later that Senator Lodge found opportunity to lay the message before the senate in open session.

The treaty was at once referred to the foreign relations committee. President Wilson was to present to the senate the text of the proposed British-French-American defense agreement, today it was announced at the White House this morning.

The president was not to go to the capitol in person but planned to send with the text a short message to be read to the senate.

The president's coast-to-coast trip on behalf of the league covenant will last thirty days, it was said.

All plans have been finished for the speeches in about 25 principal cities. The date of departure remains uncertain. It was said the president may find it advisable to delay his start until August 15.

He will confer with Secretary Daniels, probably today, concerning

the advisability of having the Pacific fleet await his arrival before entering San Francisco harbor.

According to published versions of the treaty, it contains a provision stipulating that it be given to the senate "at the same time" as the treaty of Versailles, which the President submitted in person July 10. When criticism of the delay first was made in the senate, White House officials said the intention was to submit the treaty after the President's speaking tour. In his talk with senators yesterday, however, the President is said to have made clear that he certainly would send it to the senate before he leaves Washington.

President Wilson had engagements today with only two Democratic senators—Swanson of Virginia, and Underwood, of Alabama. He also arranged to see Representatives Alexander (Democrat), of Missouri and John W. Rainey (Democrat) of Illinois, as well as to preside at the regular Tuesday cabinet meeting this afternoon.

Two Democrats, Senators Thomas of Colorado and Gay, of Louisiana, were scheduled for speeches in the senate today on the league.

## Want to Feel Just Right?

Take an NR Tonight

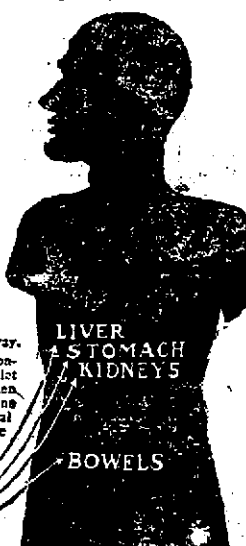

JUST TRY IT AND SEE how much better you feel in the morning. That "lousy" headache, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

**TROUBLE IS**, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels, and prod the liver.

**Nature's Remedy (NR Tablets)** acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

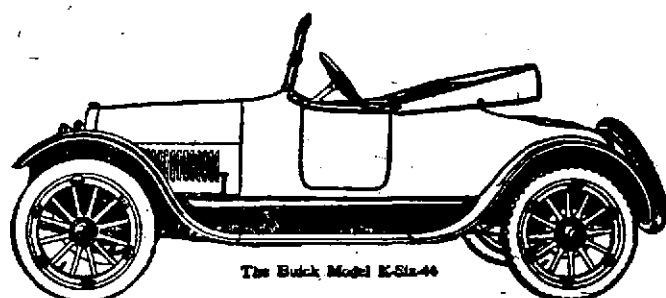

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best. Get a 25¢ Box

Model "K"-44

The Buick Model K-Six-44

## Buick Three-Passenger Roadster

THE BUICK Model K-Six-44 possesses marked advantages for the man or woman who wishes a car of limited passenger capacity, with an exceptionally roomy and comfortable driving compartment. This three-passenger model makes the most of these desirable features, without sacrificing one whit of the modish appearance that belongs to the type.

The body is distinctly a Buick creation, broadening out to accommodate a wide, deep seat for three, then curving in at the back to form a trim rear deck with a weatherproof carrying space for luggage.

The dimensions of the driving compartment insure easy entrance or exit from either side, with the control and brake levers well forward but within easy reach. The French pleated upholstery is built for long wear and comfort.

Inclined windshield, handsome improved top of high grade material, side curtains that swing open with the doors.
